## **Peoplesoft Travel Manual:**

Business Travel Management Strategies Annette Rocholl, 2012-11-02 Inhaltsangabe Introduction During a rail or airplane trip on an early midweek s morning men in suits working on their laptops or reading the latest newspaper are a common scene This might lead to the assumption that business travellers are important customers to the tourism and travel industry and companies spend large sums on the trips of their employees Indeed this impression can be proven right Such 30 40% of all travel in Germany is business driven In average companies spent 3 9% up to 5% of their yearly indirect cost on business travel In a globalized market business travel is important and necessary for companies It is an investment which influences the performance of a company positively if applied correctly However as for every investment costs are attached which need to be validated upon their necessity and their cost benefit ratio Furthermore for business travel aspects like security work time employee wellbeing and other factors must be considered to increase the positive outcome for the company There is a clear requirement for business travel and its management which will be explained in more detail during this thesis However still many companies are not aware of the cost factor of business travel Even if certain awareness has been established often still no clear strategy is in place to improve the value for money and avoid yearly cost increases To create such a strategy it is necessary to have a good understanding of the travel industry their relevant players and the companies travel structure

Motivation Business travel management i e the professional organisation of business travel has just developed during the last 50 years Globalisation and development of transportation caused a quick increase during the last years of the business travel industry In 2008 German companies spend 46 6 billion Euros on business travel The strategic management of business travel requirements however is still not common in every company Though scientific universal literature about business travel management is limited Only a small number of authors give directions upon how to implement a complete travel management system in a company In many cases the available theoretical literature has no practical tips for users On the other hand there are many white papers studies and articles available which are up to date give practical tips however only refer to one aspect of the travel process This implies that inexperienced

**Business Travel News** ,2000 **Animal Care and Management at the National Zoo** National Research Council, Division on Earth and Life Studies, Institute for Laboratory Animal Research, Board on Agriculture and Natural Resources, Committee on the Review of the Smithsonian Institution's National Zoological Park, 2005-11-27 This report follows up on an interim report released in February 2004 that focused on immediate needs in the areas of animal care and management recordkeeping and pest control The report finds that the zoo has made good faith efforts to correct deficiencies noted in the interim report and has made some noticeable improvements in the past year in zoo operations and animal care However problems in areas such as staff training workplace culture and strategic planning still need to be addressed Specifically the report recommends that the zoo immediately develop and implement animal care training programs to ensure that people who are directly responsible for the well being

of its animal collection are adequately prepared and competent The report commends a zoo initiated strategic planning process as a positive step but recommends it contain a more detailed comprehensive strategy of how it will meet short term goals and that it should link plans to upgrade facilities with those to acquire animals The zoo should also focus on improving communication among keepers veterinarians nutritionists senior managers and curators
