

# What Is a Personal Statement for College?

## INTRO

My father held his ax in his right hand, turning to me to ask, "Are you ready?" Before I could nod, he brought the ax head down on the geode, cracking the plain rock to reveal bright purple crystals concealed within. Ever since that first crack of my father's ax, I have had an immense interest in the inner workings of geology, volcanology, and mineralogy. To many, rocks are just rocks, but to me, they are an opportunity for me to expand my knowledge and figure out why mineral matter, well, matters.

My main activity throughout school has been wrestling. Since middle school, I have lived for the smell of the mat, the pure adrenaline of competition, contorting my body to twist my opponents into painful shapes or to escape holds. It was all about problem-solving and understanding strengths and weaknesses. That went hand-in-hand with my education about minerals. Even the most solid charnockites could still break, and even broken fragments could fuse into something new. My interest in rocks is what earned me my nickname on the mat.

Engaging with the physical world is all I have ever known, from learning to wrestle to learning formations of igneous rock to cracking open geodes. Going deeper into the study of geology is an opportunity for me to learn more about a world that we unconsciously navigate every single day. I plan to take my geologic studies beyond this school to address climate change. Ideally, I want to educate others about rocks and their integral role in our future, particularly in water management within lesser-served communities. After all, minerals are in my blood and my name.
