The Winning of the West: The Indian wars, 1784-1787. Franklin, Kentucky, Ohio, and Tennessee Theodore Roosevelt, 1900 **Students of Color and the Achievement Gap** Richard R. Valencia, 2015-03-05 Students of Color and the Achievement Gap is a comprehensive landmark analysis of an incontrovertible racialized reality in U S K 12 public education the relentless achievement gap between low socioeconomic students of color and their economically advantaged White counterparts Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap focusing on Black and Latino Latina students He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory an asset based perspective and a systemic inequality approach By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools Valencia shows how the various indicators of the achievement gap are actually symptoms of the societal and school quality gaps Following each of these concerns Valencia provides a number of reform suggestions that can lead to systemic transformations of K 12 education Students of Color and the Achievement Gap makes a persuasive and well documented case that school success for students of color and the empowerment of their parents can only be fully understood and realized when contextualized within broader political economic and cultural frameworks

The Winning Investment Habits of Warren Buffett & George Soros Mark Tier, 2013-09-17 Warren Buffett Carl Icahn and George Soros all started with nothing and made billion dollar fortunes solely by investing But their investment strategies are so widely divergent what could they possibly have in common As Mark Tier demonstrates in this insightful book the secrets that made Buffet Icahn and Soros the world s three richest investors are the same mental habits and strategies they all practice religiously However these are mental habits and strategies that fly in the face of Wall Street s conventional mindset For example Buffett Icahn and Soros do not diversify When they buy they buy as much as they can They re not focused on the profits they expect to make Going in they re not investing for the money at all They don t believe that big profits involve big risks In fact they re far more focused on not losing money than making it Wall Street research reports They never read them They re not interested in what other people think Indeed Buffett says he only reads analyst reports when he needs a laugh In The Winning Investment Habits of Warren Buffett George Soros you can discover how the mental habits that guided your last investment decision stack up against those of Buffett Icahn and Soros Then learn exactly how you can apply the wealth building secrets of the world s richest investors to transform your own investment results

consumers And yet the same party that championed the rights of the white working man also vigorously protected or advanced the causes of slavery segregation and Indian removal As the party evolved towards a more inclusive egalitarian vision it won durable victories for Americans of all backgrounds But it also struggled to hold together a majority coalition and advance a persuasive agenda for the use of government Kazin traces the party s fortunes through vivid character sketches of its key thinkers and doers from Martin Van Buren and William Jennings Bryan to the financier August Belmont and reformers such as Eleanor Roosevelt Sidney Hillman and Jesse Jackson He also explores the records of presidents from Andrew Jackson and Woodrow Wilson to Bill Clinton and Barack Obama Throughout Kazin reveals the rich interplay of personality belief strategy and policy that define the life of the party and outlines the core components of a political endeavor that may allow President Biden and his co partisans to renew the American experiment
