The chapter contents encompass knowledge that applies to all branches of nursing e.g. Communication, Confusion, Aggression and Rehabilitation, Safety and Risk, Infection Control, Medicines etc. The structure of all chapters is unique in integrating knowledge from subject areas often taught separately in the nursing curriculum. This enables the foundation student to integrate this range of knowledge in making decisions about the delivery of nursing care to patients/clients in all fields of nursing. Exercises are included to encourage reflection on practice and develop critical thinking skills. It also promotes the expansion of professional knowledge through the development of portfolio evidence. Each chapter begins with an overview of the content and concludes with a summary to help evaluate learning. Case studies reflect the diverse range of client needs and care settings of the four nursing branches and help relate theory to practice. Reflective exercises and suggestions for portfolio evidence along with decision making activities promote reflection on personal experience and links to nursing practice using a problem based approach. Current research is highlighted throughout demonstrating the evidence base for practice decisions. Key web sites annotated for further reading and references encourage readers to pursue contemporary evidence that underpins competency based practice. Full colour throughout.
