3 Minute Summary of Scaling Up

Excellence by Hayagreeva Rao and Robert Sutton thimblesofplenty, thimblesofplenty is a group of friends who also happen to be business people and avid readers. We wanted to keep up with the latest business books but found that time was a factor. So we divided out the work and each of us took a book and summarised it for the others. We thought it might be a great idea to share these summaries with you. For a small price and a 3 minute time investment our summary gives you some of the wisdom from the book, some food for thought and hopefully the impetus to make some time to read the whole book.

Principles-Focused Evaluation Michael Quinn Patton, 2017-09-28. How can programs and organizations ensure they are adhering to core principles and assess whether doing so is yielding desired results? From evaluation pioneer Michael Quinn Patton, this book introduces the principles-focused evaluation (PFE) approach and demonstrates its relevance and application in a range of settings. Patton explains why principles matter for program development and evaluation and how they can serve as a rudder to navigate the uncertainties, turbulence, and emergent challenges of complex dynamic environments. In-depth exemplars illustrate how the unique GUIDE framework is used to determine whether principles provide meaningful guidance. It is useful, inspiring, developmentally adaptable, and evaluable. User-friendly features include rubrics, a PFE checklist, firsthand reflections, and examples from experienced PFE practitioners. Sidebars and summary tables and end-of-chapter application exercises.

Scale-ups and High-Growth Firms Alex Coad, Anders Bornhäll, Sven-Olov Daunfeldt, Alexander McKelvie, 2024-03-14. This open access book goes into the details of the characteristics of scale-ups, touching upon various theoretical perspectives, stages of growth models, the role of intangible capital, the tradeoffs between fixed costs and marginal costs relating to firm growth, to provide a clear definition of this emerging concept. Given the disproportionately large economic contribution of a small number of fast-growing firms, there has been growing interest in a category of dynamic ventures called scale-ups. The term was popularized by Silicon Valley Venture Capitalists before receiving attention from academics and public policy makers. However, there remains considerable confusion regarding what a scale-up actually is. This is an open access book.

Scaling for Success T. Brad Harris, Andrew C. Bartlow, 2021-07-06. Managing a high-growth organization requires both strategy and adaptability. Unfortunately, start-up founders and executives seeking to scale up to the next level find all too frequently that growth turns into chaos. Rather than laying the groundwork for the future, organizations get stuck by covering up complex problems with unsustainable band-aids and duct tape fixes, implementing anecdote-based solutions from the latest tech industry unicorns or leadership books, and relying on too much on-the-fly learning from inexperienced managers. This book is the definitive guide for leaders of high-growth organizations seeking to understand and execute the people management principles that are essential to continued success. Combining a wealth of practical experience, well-grounded academic research, and easy-to-apply frameworks, Andrew Bartlow and T. Brad Harris offer a practical toolkit that founders, functional leaders, and managers of people can use to rethink their practices to

meet their organizations needs They help readers identify the core people management programs and practices that are best for an organization at its current stage and size while also supporting a foundation for continued development and the capacity to adapt to inevitable surprises Practical actionable and supplemented with numerous diagnostic tools and illustrative examples *Scaling for Success* is a must have playbook for organizational leaders pursuing smart and sustainable growth *Handbook of Research on Scaling and High-Growth Firms* Veroniek Collewaert,Justin J.P.
