The Control Handbook William S. Levine, 1996-02-23 This is the biggest most comprehensive and most prestigious compilation of articles on control systems imaginable Every aspect of control is expertly covered from the mathematical foundations to applications in robot and manipulator control Never before has such a massive amount of authoritative detailed accurate and well organized information been available in a single volume Absolutely everyone working in any aspect of systems and controls must have this book

Thermal Distribution Principle and Nonlinear Optimal Control for HVAC Water System Tianyi Zhao, Jiaming Wang, Yiting Wang, 2025-01-19 This book introduces the intelligent control technology of heating ventilation and air conditioning HVAC water system in detail studying its thermal distribution characteristics and optimal control methods combining the nonlinearity strong coupling and delay characteristics to improve the overall operation and maintenance level as well as the energy efficiency of HVAC water system Intelligent control technology of HVAC water systems involves various fields such as electrical mechanical environmental and civil engineering The book establishes a basic research framework for this topic using a sub total approach emphasizing the importance of thermodynamic properties and the significant influence of nonlinear properties in the optimal control of the system This book is intended for undergraduate and postgraduate students interested in automated control of HVAC water systems researchers investigating methods for system energy conservation and optimization and design engineers working on intelligent operation and maintenance of HVAC water system

Heating and Water Services Design in Buildings Keith Moss, Keith J Moss, 2003 Heating and Water Service Design in Buildings has been written following thirteen years in the industry and twenty seven years teaching and consultancy work The author has worked with college students university undergraduates and open learning candidates of all ages
