Organizational Report Cards William T. Gormley Jr., David L. Weimer, 1999-03 In recent years consumers professional organizations government officials and third party payers have become increasingly concerned about how to assess the quality of the services provided by organizations in both the private and the public sectors One new approach is the organizational report card which compares the performance of organizations such as public schools colleges hospitals and HMOs This book offers the first comprehensive study of such instruments It discusses the circumstances under which they are desirable alternatives to other policy instruments such as regulation how they should be designed who is likely to use them and for what purpose and what role if any government should have in their creation Informed by cases drawn from education health and other policy areas this book develops a conceptual framework for analyzing these issues It explores the tradeoffs in measuring performance the methods of communicating results effectively to mass and elite audiences and the ways in which organizations respond to the data gathered

Expectations and Aspirations Safaa El Tayeb El-Kogali, Caroline Krafft, 2019-01-30 Education which has been at the heart of the Middle East and North Africa MENA region s history and civilizations for centuries has a large untapped potential to contribute to human capital well being and wealth The region has invested heavily in education for decades but it has not been able to reap the benefits of its investments Despite a series of reforms MENA has remained stuck in a low learning low skills level *Expectations and Aspirations A New Framework for Education in the Middle East and North Africa* identifies four key sets of tensions that are holding back education in the region credentials and skills discipline and inquiry control and autonomy and tradition and modernity These tensions are shaped by society and are reflected in classrooms If they are not addressed MENA will continue to operate at a level below its potential This report outlines a new framework with a three pronged approach that can help address these tensions and unleash the potential of education in MENA A concerted push for learning that starts early for all children regardless of background with qualified and motivated educators and that leverages technology uses modern approaches and monitors learning outcomes A stronger pull for skills by all stakeholders in the labor market and society that involves coordinated multisystem reforms within and beyond the education system A new pact for education at the national level with a unified vision shared responsibilities and accountabilities Education is not just the responsibility of the education system it is everyone s business The push pull and pact framework offers an opportunity for MENA to move forward to reclaim its heritage of a learned region and to meet the expectations and aspirations of its people The current situation in MENA requires a renewed focus on education not just as a national priority for economic growth and social development but as a national emergency for stability peace and prosperity **America 2000** ,1991 **The Miracle Pill** Peter Walker, 2021-01-21 This book is pretty life changing encouraging optimistic rich with information It got me off the sofa Jeremy Vine This is such a lovely ambitious fascinating book Essential lockdown reading It allows us to reimagine our world and our bodies we can move more Dr Xand van Tulleken TV presenter Truly uplifting Chris Boardman What is the miracle pill the simple lifestyle change with such enormous health benefits that if it was turned into a drug would be the most valuable drug in the world The answer is movement and the good news is that it s free easy and available to everyone Four in ten British adults and 80% of children are so sedentary they don t meet even the minimum recommended levels for movement What s going on The answer is simple activity became exercise What for centuries was universal and everyday has become the fetishised pursuit of a minority whether the superhuman feats of elite athletes or a chore slotted into busy

schedules Yes most people know physical activity is good for us And yet 1 5 billion people around the world are so inactive they are at greater risk of everything from heart disease to diabetes cancer arthritis and depression even dementia Sedentary living now kills more people than obesity despite receiving much less attention and is causing a pandemic of chronic ill health many experts predict could soon bankrupt the NHS How did we get here Daily constant exertion was an integral part of humanity for millennia but in just a few decades movement was virtually designed out of people s lives through transformed workplaces the dominance of the car and a built environment which encourages people to be static In a world now also infiltrated by ubiquitous screens app summoned taxis and shopping delivered to your door it can be shocking to realise exactly how sedentary many of us are A recent study found almost half of middle aged English people don t walk continuously for ten minutes or more in an average month At current trends scientists forecast the average US adult will expend little more energy in an average week than someone who spent all their time in bed This book is a chronicle of this very modern and largely unexplored catastrophe and the story of the people trying to turn it around Through interviews with experts in various fields doctors scientists architects and politicians Peter Walker explores how to bring more movement into the modern world and most importantly into your life Forget the gym introducing quick and easy lifestyle changes can slow down the ageing process and even reverse many illnesses and increase mental wellbeing *Report of the Executive Council of Iowa of Expenses and Disposition of Fees and Moneys Collected of Stateofficers and Institutions ...* Iowa.
