A concise and accessible text is supported by numerous worked examples and problems, with a complete Answer Section at the back of the book. Now in its fifth edition, the text has been fully updated in line with the current BTEC National syllabus and includes a grid mapping the chapters to the BTEC units. The breadth of coverage means this fifth edition will also prove an essential reference for students embarking on HNC and Foundation Degrees who require a general introduction to this subject area. New for this edition is online lecturer support available from <http://textbooks.elsevier.com> and featuring Key points, definitions, and equations from the book for use as handouts. Multiple Choice Questions, Answers to the Multiple Choice Questions, PowerPoint slides featuring essential illustrations per topic area for use in lectures or as handouts.
