Ricks,2010-01-06 Thomas E Rick s news breaking follow up to the 1 New York Times bestseller Fiasco Now updated to fully document the inside story of the Iraq war since late 2005 The Gamble is the definitive account of the insurgency within the U S military that led to a radical shift in America s strategy Based on unprecedented real time access to the military s entire chain of command Ricks examines the events that took place as the military was forced to reckon with itself the surge was launched and a very different war began His stunning conclusion stated in the last line of the book is that the events for which the Iraq war will be remembered probably have not yet happened **American Gas-light Journal and Chemical Repertory** ,1884 Readers' Guide to Periodical Literature Anna Lorraine Guthrie,Bertha Tannehill,Neltje Marie Tannehill Shimer,1925 An author subject index to selected general interest periodicals of reference value in libraries *Harriet Beecher Stowe* Joan D. Hedrick,1995-06-01 Up to this year I have always felt that I had no particular call to meddle with this subject But I feel now that the time is come when even a woman or a child who can speak a word for freedom and humanity is bound to speak Thus did Harriet Beecher Stowe announce her decision to begin work on what would become one of the most influential novels ever written The subject she had hesitated to meddle with was slavery and the novel of course was Uncle Tom s Cabin Still debated today for its portrayal of African Americans and its unresolved place in the literary canon Stowe s best known work was first published in weekly installments from June 5 1851 to April 1 1852 It caused such a stir in both the North and South and even in Great Britain that when Stowe met President Lincoln in 1862 he is said to have greeted her with the words So you are the little woman who wrote the book that created this great war In this landmark book the first full scale biography

of Harriet Beecher Stowe in over fifty years Joan D Hedrick tells the absorbing story of this gifted complex and contradictory woman Hedrick takes readers into the multilayered world of nineteenth century morals and mores exploring the influence of then popular ideas of true womanhood on Stowe's upbringing as a member of the outspoken Beecher clan and her eventful life as a writer and shaper of public opinion who was also a mother of seven It offers a lively record of the flourishing parlor societies that launched and sustained Stowe throughout the 44 years of her career and the harsh physical realities that governed so many women's lives The epidemics high infant mortality and often disastrous medical practices of the day are portrayed in moving detail against the backdrop of western expansion and the great social upheaval accompanying the abolitionist movement and the entry of women into public life Here are Stowe's public triumphs both before and after the Civil War and the private tragedies that included the death of her adored eighteen month old son the drowning of another son and the alcohol and morphine addictions of two of her other children The daughter sister and wife of prominent ministers Stowe channeled her anguish and her ambition into a socially acceptable anger on behalf of others transforming her private experience into powerful narratives that moved a nation Magisterial in its breadth and rich in detail this definitive portrait explores the full measure of Harriet Beecher Stowe's life and her contribution to American literature Perceptive and engaging it illuminates the career of a major writer during the transition of literature from an amateur pastime to a profession and offers a fascinating look at the pains pleasures and accomplishments of women's lives in the last century

Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1882 **School Reform, Corporate Style** Dorothy Shipps,2006 Like other big city school systems Chicago's has been repeatedly reformed over the last century Yet its schools have fallen far short of citizens expectations and left a gap between the performances of white and minority students Many blame the educational establishment for resisting change Other critics argue that reform occurs too often still others claim it comes not often enough Dorothy Shipps reappraises the tumultuous history of educational progress in Chicago revealing that the persistent lack of improvement is due not to the extent but rather the type of reform Throughout the twentieth century managerial reorganizations initiated by the business community repeatedly altered the governance structure of schools as well as the relationships of teachers to children and parents but brought little improvement while other more promising reform models were either resisted or crowded out Shipps chronicles how Chicago's corporate actors led abetted or restrained nearly every attempt to transform the city's school system then asks whether schools might be better reformed by others To show why city schools have failed urban children so badly she traces Chicago's reform history over four political eras revealing how corporate power was instrumental in designing and revamping the system Her narrative encompasses the formative era of 1880-1930 when teachers unions moderated business plans previously unexplored business activism from 1930 to 1980 when civil rights dominated school reform and the decentralization of the 1980s She also covers the uneasy cooperation among business associations in the 1990s to install the mayor as head of the

school system a governing regime now challenged by privatization advocates Business people may be too wedded to a stunted view of educators to forge a productive partnership for change Unionized teachers bridle at the second class status accorded them by managers If reform is to reach deeply into classrooms Shipps concludes it might well require a new coalition of teachers unions and parents to create a fresh agenda that supersedes corporate interests This study clearly shows that in Chicago as elsewhere urban schooling is intertwined with politics and power By reviewing more than a century of corporate efforts to make education work Shipps makes a strong case that it s high time to look elsewhere perhaps to educators themselves for new leadership *Corpus Juris* William Mack, William Benjamin Hale, 1918
