Relationship-based Social Work with Adults Heidi Dix,Sue Hollinrake,Jennifer Meade,2025-02-28 There has been a resurgent interest in relationship based practice and the Care Act 2014 recognises the significance of effective working relationships with service users and carers to ensure a person centred approach and effective participation and co production The Care Act advocates a strengths based whole family approach to assessment care and support planning Relationship putting the person at the centre of the process lies at the heart of this

approach This book is a practice based exploration of relationship based practice for social work with adults that looks at underpinning theory legislation and policy drivers value perspectives and skills in practice The first part of the book introduces relationship based practice and theoretical concepts such as psycho social and psycho dynamically informed approaches to practice which highlight the complexities of relationships at conscious and unconscious levels both from the service user carer perspective and the professional s perspective where reflection and use of self are key it critically explores the legislation and policy context A conceptual model called IDEAS is introduced which provides a framework for the second part of the book by breaking down the discussion into relevant practice issues Here theory skills and values are applied through case examples to illustrate the efficacy of relationship based practice across a range of practice settings in social work with adult service users and carers

Learning-Through-Touring Juliet Sprake,2012-03-26 Learning through Touring uncovers ways in which people interact with the built environment by exploring the spaces around between and within buildings The key idea embodied in the book is that learning through touring is haptic the learner is a physical cognitive and emotional participant in the process It also develops the concept that tours rather than being finished products are designed to evolve through user participation and over time Part One of the book presents a series of analytical investigations into theories and practices of learning and touring that have then been developed to produce a set of conceptual methods for tour design Projects that have tried and tested these methods are described in Part Two Technologies that have been utilised as portable tools for learning through touring are illustrated both through historical and contemporary practices In all of this there is an underlying belief that what is formally presented to us by authorities is open to self discovery questioning and independent enquiry The book is particularly relevant for those seeking innovative ways to explore and engage with the built environment mobile learning educators learning departments in museums galleries and historic buildings organisations involved in bridging the gap between architecture and public understanding and anyone who enjoys finding out new things about their environment

Down, Dirty and Divine Stephanie Clarke,2012-08-16 Down Dirty and Divine is an invitation to readers to go on a meaningful and transformational journey through the underground of London and to assist in healing the City whilst also cleansing their own soul and the soul of the planet Murder and madness death and disease crime and corruption pain and punishment ghouls and ghosts this is London s morbid history But it is humanity s history too Rev Stephanie Clarke answers the question how can we heal Selecting 12 London Underground Tube Stations as the physical and spiritual entry points into the City s underbelly she offers readers some historical information some personal reflection and an affirmative prayer to heal the particular trauma associated with the site of each Tube Station In a dream state the author was told that the 2012 Olympic Games would stimulate an unprecedented convergence of the masses upon the City of London and would be a powerful catalyst to usher in global transformation Serendipitously many of London s great citizens including Sir Christopher Wren the architect of St Paul s Cathedral have long held the vision of London as the New Jerusalem

a celestial city of light and a universal centre of peace and reconciliation Down Dirty and Divine is a spiritual tour guide inviting readers to be active instruments in the fulfillment of this grand planetary vision in 2012 and beyond *State-led Privatisation and the Demise of the Democratic State* Mike Raco,2016-04-01 For decades now we have been told that we are living through a governance revolution Gone are the days when government agencies and bureaucrats told us what to do and how to do it We are no longer clients of the state but empowered citizens who are able to take greater control over our own lives and the activities of those who govern in our name Across the world the prevailing narrative has become one of Good Governance devolution liberation and freedom of expression In policy fields as diverse as development planning healthcare and public transport a neo pluralist rhetoric has emerged based on the principles of co production and partnership working And yet at the same time a curious paradox is emerging Whilst the prevailing zeitgeist is one of openness and citizen empowerment this book will show that in reality new modes of governance are emerging in which state controls have actually been expanded into many spheres of life that were previously left unregulated For some a new political economy of regulatory capitalism has emerged and this in turn has ushered in unprecedented forms of state led privatisation under which democratically elected politicians have voluntarily handed over their powers responsibilities and resources to new corporate elites who promise to deliver services in more efficient and equitable ways As the discussion will show in reality the rhetoric of Good Governance has therefore been used to legitimate the wholesale transfer of welfare assets and services beyond the democratic control of state actors and the citizens that they represent Privatisation has become a new utopianism that involves a revolution in ways of thinking about democracy governance and urban management the implications of which will be felt by current and future generations **Just Taxes** Martin Daunton,2002-10-17 In 1914 taxation was about 10 per cent of GNP by 1979 taxes had risen to almost half of the total national income and contributed to the rise of Thatcher Martin Daunton continues the story begun in *Trusting Leviathan* offering an analysis of the politics of acceptance of huge tax rises after the First World War and asks why it did not provoke the same levels of discontent in Britain as it did on the continent He further questions why acceptance gave way to hostility at the end of this period Daunton views taxes as the central driving force for equity or efficiency As such he provides a detailed discussion of their potential in providing revenue for the state and their use in shaping the social structure and influencing economic growth **Just Taxes** places taxation in its proper place at the centre of modern British history **Research Methods in Education** Louis Cohen, Lawrence Manion, Keith Morrison,2013-03-07 This rewritten expanded and updated 7th edition of the long running bestseller *Research Methods in Education* encompasses the whole range of methods currently employed by educational research at all stages It offers plentiful and rich practical advice underpinned by clear theoretical foundations research evidence and up to date references Chapters new to this edition cover Causation critical educational research evaluation and the politics of research including material on cross cultural research mixed methods and participatory research Choosing and planning a research project

including material on sampling research questions literature reviews and ethical issues Meta analysis research syntheses and systematic reviews Virtual worlds and internet research Using and analysing visual media and data in educational research Organizing and presenting qualitative data content analysis coding and computer analysis themes narratives conversations and discourses grounded theory Understanding and choosing statistical tests descriptive and inferential statistics multi dimensional measurement and factor analysis Research Methods in Education is essential reading for both the professional researcher and students of education at undergraduate and postgraduate level who need to understand how to plan conduct analyse and use research The textbook is accompanied by a website www.routledge.com/textbooks/cohen7e PowerPoint slides for every chapter contain an outline of the chapter structure followed by a thorough summary of the key points ideal for both lecturers and students Within the book a variety of internet resources are referred to and these references have been included here with links to the websites A wide range of supplementary documents are available for many chapters providing additional guidance and examples They range from guidelines for the contents of a research proposal with a worked example to screen print manuals for using SPSS and QSR N6 NUD IST exportable to N Vivo plus data files
