

Student Exploration: Populations and Samples

Background: Frequency distributions describe the distribution of a population. A sample

Prerequisite Knowledge: Students should know how to draw a normal distribution curve.

1. **Frequency Distributions:** A frequency distribution is a table or graph that shows the frequency of each value in a data set. The frequency of a value is the number of times that value occurs. The following graph shows the frequency distribution of test results for a class of students.

2. How would you describe the shape of this distribution?

Answer: The shape of the distribution is roughly bell-shaped, but it is not perfectly symmetric. The distribution is skewed to the right.

3. On the above graph, sketch what you think the frequency distribution might look like if the scores were normally distributed. Label the axes.
