

CSEC SOCIAL STUDIES SBA GUIDELINES

IMPORTANT NOTES:

- i. **Do not** use pronouns when writing the SBA.
E.g. Instead of stating "I distributed..." state "the researcher distributed..."

Task 1: Statement of Problem (2 marks)

1. State the problem in the form of a question. The topic should have only **one variable**.
E.g. What are the causes of young people to use illegal drugs in Sandy Bay? **NOT** What are the causes and effects of young people to use illegal drugs in Sandy Bay?
2. The Statement of Problem should **not** be able to be answered by "Yes" or "No".
E.g. "Is there a problem with gang violence?". It should be "To what extent..."
3. Topic should be specific e.g. What, Who, Where, effects of, of fifth form students of the Basseterre High School, among the elderly in the McKnight community.

Task 2: Reason for Selecting the Area of Research (2 marks)

This should have 2-3 strong sentences explaining the reason why the topic was selected. This task ought to be based on a situation that the researcher has experienced.

E.g.. The researcher heard the residents in her area speak about Internet Fraud. It is her hope that her research can help people not to become victims in the future.

Task 3: Method of Investigation (2 marks)

1. Select an appropriate method of investigation. Such as:
 - i. Questionnaire
 - ii. Observation
 - iii. Telephone Survey
 - iv. Documentary Survey
2. Describe the Method of Investigation.
Eg. The Questionnaire consists of 20 questions, 12 closed-ended, 5 open-ended and 3 "yes" and "no" responses.
The Telephone Survey consists of 10 questions
The researcher used an Observation Check-list to conduct his/her research.
3. Justification of the selected method- At least two properly explained reasons why you selected the method.

Republic of Kosovo International Monetary, International Monetary Fund. European Dept., 2023-06-07 After a strong recovery from the pandemic higher international commodity prices moderated GDP growth in 2022 which posted 3.5 percent while inflation exceeded 11 percent Lower commodity prices in 2023 will provide much needed relief to households and firms This together with supportive fiscal policy especially higher public investment absorption will underpin higher growth of about 4 percent and lower inflation which should slow to 5.6 percent Risks continue to be mainly on the downside higher commodity prices would lead to lower growth and higher inflation and tighter financial conditions would weigh on bank asset quality and liquidity

Republic of Serbia International Monetary, International Monetary Fund. European Dept., 2023-07-05 Serbia has made impressive economic gains over much of the past decade living standards improved inflation fell public finances were strengthened and reserves increased helped by ample foreign direct investment FDI inflows But spillovers from the war in Ukraine especially the sharp increase in international energy prices and deep rooted problems in Serbia's energy sector that came to a head last year led to large

external and fiscal financing needs prompting the authorities to request a Fund supported Stand By Arrangement SBA Fiscal and external outturns for 2022 were both better than expected and unemployment remains low Record FDI inflows continue to drive reserves higher But inflation remains a pressing challenge Led by high food and energy prices headline inflation is now well above the National Bank of Serbia's NBS's target band and core inflation has also increased sharply Fiscal policy is expected to remain relatively tight in 2023 despite additional mid year spending measures Deep structural problems persist in the energy sector and are a key focus of the SBA Long standing geopolitical challenges remain **Bolivia** International Monetary Fund,2004-01-14 Bolivia's pursuit of structural reforms has begun to yield results despite the difficult social and political context The fiscal performance under the program needs to be substantially strengthened The recent passage of the informal corporate workout law represents a substantial advance in financial and corporate restructuring Executive Directors are in agreement with the government on the approach to reduce banking system fragility To sustain economic growth the pace of structural reforms has to be invigorated Firm implementation of the program can achieve its goals *Dominica* International Monetary Fund,2004-01-12 In this study the authorities outlined a two stage strategy and explained the need for requesting the cancellation of Stand By Arrangement and the approval of a Three Year Arrangement Under the Poverty Reduction Growth Facility PRGF The objective of the three year program is to review growth by addressing the debt overhang and structural weaknesses The underlying concept of fiscal reform is to support the achievement of the medium term primary surplus target The authorities will implement a number of initiatives to strengthen the investment climate in the economy *Guide to Record Retention Requirements in the Code of Federal Regulations* ,2001 **Overview of SBA's Activities** United States. Congress. House. Committee on Small Business. Subcommittee on General Oversight and Minority Enterprise,1979 **Guide to Record Retention Requirements** ,1981 *Romania* International Monetary Fund,2003-05-07 This paper assesses Romania's Third Review Under the Stand By Arrangement and a Request for Waiver of Performance Criterion Romania's macroeconomic performance continued to be favorable but slippages in wage policy and privatization delayed the completion of the third review Robust GDP growth continued throughout 2002 and progress in reducing inflation and the current account deficit was better than targeted However financial discipline in the state owned sector remained weak and the end September performance criterion on the wage bill in monitored state owned enterprises was not observed **Iraq** International Monetary Fund,2007-03-22 This paper discusses key findings of the Third and Fourth Reviews Under the Stand By Arrangement SBA for Iraq Economic growth in 2006 was below target because oil production did not increase as projected This reflected lower than planned investment and the lack of security Inflation increased to 65 percent in 2006 to December 2006 This was mainly owing to shortages of key commodities caused in part by the ongoing insurgency The underlying rate of inflation has also remained high **Republic of Kosovo** International Monetary Fund. European Dept.,2023-11-20 Context Outlook and Risks GDP growth is expected to average 4 percent per

annum over 2023/24 on lower international commodity prices, vigorous diaspora flows and sound macroeconomic policies. Average inflation is projected to decline to about 5 percent in 2023 and 3.2 percent in 2024. Risks to growth are balanced on the short term but on the downside in the medium term given the complex geopolitical scenario.
