George Westhaver

On Angels Exposition For A Post Modern World:

On Angels Andrei Pleșu, 2012 *On Angels* invites you to rediscover the culture of the world Christian sources Greek philosophy Persian mysticism and medieval scholastic philosophy are extensively cited in this rigorously researched treatise published by Berlin University Press and Cross Meridian Andrei Pleșu's exuberant style shines throughout the book Part II contains wonderful essays The angel and the moment The silence of the angels The world in the mirror Angelic love The aroma of the world The intellect as angel Universal man etc However rational we claim to be we resort with unacceptable frequency and with a certain nonchalance to magical explanations To get exactly the topic you had prepared for in an exam to win the lottery to escape a serious accident unscathed generally seem to us to be signs of something mysteriously elect destiny was on our side we were lucky we escaped by a miracle Such miracles are more frequent than we imagine For modern man the world is a sum of harsh natural laws combined with obscure random episodes while for traditional man the world is an order without remainder a harmonious ensemble of providential events No reasonable metaphysics of chance can be constructed But what can be constructed is a theology of angels founded on universal sacred texts and on a vast hermeneutic tradition Modern man has difficulty in believing in angels not because he is rational and atheist but because he does not believe in order or has an inconsequential image of order In contrast traditional man tackles the problem of the lack of evidence for the invisible and unclassifiable with dizzying daring preferring to force understanding provocatively to systematise that which nowadays we primitively put down to chance

A Transforming Vision George Westhaver, 2018-01-31 The study of Christian theology in the last half century has seen a major renaissance in Trinitarian thought which has attempted to connect Trinitarian theology to all aspects of Christian faith and practice This revival has often addressed the unfortunate split which has haunted much modern theological endeavour between theology and both prayer and practice the disjunction between thought about God and the movement of the heart toward God in transformed lives Drawn from papers given at a Pusey House conference in 2015 the contributors to this collection explore what it means to know and love the Triune God and how the knowledge of God can be a transforming and saving knowledge

The World We Live In Alexandru Dragomir, 2016-12-15 This book contains twelve engaging philosophical lectures given by Alexandru Dragomir most of them given during Romania's Communist regime The lectures deal with a diverse range of topics such as the function of the question self deception banalities with a metaphysical dimension and how the world we live in has been shaped by the intellect Among the thinkers discussed in these lectures are Anaxagoras Socrates Plato Aristotle Descartes and Nietzsche Alexandru Dragomir was a Romanian philosopher born in 1916 After studying law and philosophy at the University of Bucharest 1933-1939 he left Romania to study for a doctorate in philosophy in Freiburg Germany under Martin Heidegger He stayed in Freiburg for two years 1941-1943 but before defending his dissertation he was called back to Romania for military service and sent to the front After 1948 historical circumstances forced him to become a clandestine philosopher he

was known only within a very limited circle He died in 2002 without ever publishing anything It was only after his death that Dragomir's notebooks came to light His work has been published posthumously in five volumes by Humanitas Bucharest the present volume is the first to appear in English translation In 2009 the Alexandru Dragomir Institute for Philosophy was founded in Bucharest as an independent research institute under the auspices of the Romanian Society for Phenomenology

In Europe's Shadow Robert D. Kaplan, 2016-02-09 Sweeping and replete with alluring detail a haunting yet ultimately optimistic examination of the human condition as found in Romania Alison Smale The New York Times Book Review From the New York Times bestselling author Robert D Kaplan named one of the world's Top 100 Global Thinkers by Foreign Policy magazine comes a riveting journey through one of Europe's frontier countries and a potent examination of the forces that will determine Europe's fate in the postmodern age Robert Kaplan first visited Romania in the 1970s when he was a young journalist and the country was a bleak Communist backwater It was one of the darkest corners of Europe but few Westerners were paying attention What ensued was a lifelong obsession with a critical often overlooked country a country that today is key to understanding the current threat that Russia poses to Europe In Europe's Shadow is a vivid blend of memoir travelogue journalism and history a masterly work thirty years in the making the story of a journalist coming of age and a country struggling to do the same Through the lens of one country Kaplan examines larger questions of geography imperialism the role of fate in international relations the Cold War the Holocaust and more Here Kaplan illuminates the fusion of the Latin West and the Greek East that created Romania the country that gave rise to Ion Antonescu Hitler's chief foreign accomplice during World War II and the country that was home to the most brutal strain of Communism under Nicolae Ceaușescu Romania past and present are rendered in cinematic prose the ashen faces of citizens waiting in bread lines in Cold War era Bucharest the barren Steppe laid bare by centuries of foreign invasion the grim labor camps of the Black Sea Canal the majestic Gothic church spires of Transylvania and Maramureș Kaplan finds himself in dialogue with the great thinkers of the past and with the Romanians of today the philosophers priests and politicians those who struggle to keep the flame of humanism alive in the era of a resurgent Russia Upon his return to Romania in 2013 and 2014 Kaplan found the country transformed yet again now a traveler's destination shaped by Western tastes yet still emerging from the long shadows of Hitler and Stalin In Europe's Shadow is the story of an ideological and geographic frontier and the book you must read in order to truly understand the crisis Europe faces from Russia and from within

Grammatology of Images Sigrid Weigel, 2022-08-16 Grammatology of Images radically alters how we approach images Instead of asking for the history power or essence of images Sigrid Weigel addresses imaging as such The book considers how something visible gets transformed into an image Weigel scrutinizes the moment of mis en apparence of making an appearance and the process of concealment that accompanies any imaging Weigel reinterprets Derrida's and Freud's concept of the trace as that which must be thought before something exists In doing so she illuminates the threshold between traces and iconic images between

something immaterial and its pictorial representation Chapters alternate between general accounts of the line the index the effigy and the cult image and case studies from the history of science art politics and religion involving faces as indicators of emotion caricatures as effigies of defamation and angels as embodiments of transcendental ideas Weigel s approach to images illuminates fascinating unexpected correspondences between premodern and contemporary image practices between the history of religion and the modern sciences and between things that are and are not understood as art **Angels: A**

Very Short Introduction David Albert Jones,2011-10-27 What are angels Where were they first encountered Can we distinguish angels from gods fairies ghosts and aliens And why do they remain so popular This Very Short Introduction investigates stories and speculations about angels in religions old and new in art literature film and the popular imagination

The Postmodern Presence Arthur Asa Berger,1998 Instead of summing up the various perspectives of scholars and the variety of ideas to which the term postmodernism has been assigned this text lets this diversity speak for itself By bringing together articles and essays on the impact of the postmodern temper on an eclectic range of subjects Berger presents a few of the many ways different theorists have come to terms with postmodernism while examining manifestations of postmodernism in the culture of everyday life **Angels** David Albert Jones,2010-03-25 What are angels Where were they

first encountered Can we distinguish angels from gods faeries ghosts and aliens And why do they remain so popular This concise introduction investigates stories and speculations about angels in religions old and new in art literature film and the popular imagination **Tony Kushner's Postmodern Theatre** Hussein Al-Badri,2014-10-21 The book is an insightful and thorough examination of one of the most prominent political dramatists in the US today Tony Kushner and his theatricalization of politics Moreover it draws heavily on Kushner s wide range of themes and techniques As such it will be beneficial for graduate students and scholars who are concerned with the realm of contemporary American drama at the threshold of the twenty first century In addition the book will appeal to anyone who wants a deeper understanding of Kushner and his major influences such as Bertolt Brecht and will also be valuable for readers with a general interest in American drama This book is primarily concerned with exploring and analyzing political discourse as dramatized in the work of Tony Kushner The author s point of departure is the concept of political theatre as developed by Erwin Piscator and Bertolt Brecht This theoretical exploration serves a double purpose first it is meant to provide a statement of the definitions and concepts central to this study such as political discourse political theatre and postmodern theatre second it offers the tools of analysis by which to read and analyze Tony Kushner s postmodern politically oriented texts Through this the book defines the major features of Kushner s postmodern theatre and explores how he theatricalizes politics American drama in the 1980s and the 1990s witnessed a noticeable thematic shift from the exclusively personal plays and musicals that once dominated American theatre for a long period of time to an increasing number of plays which put greater emphasis on exploring issues and questions of socio political interest As a result of this thematic shift the predominantly private settings and familial

character relationships of the traditional family play have been replaced by a great variety of public settings and non familial characters Tony Kushner s theatre is a pioneering attempt in this respect In Kushner s theatre there is no room for the traditional family plays which dominated the American stage in the 1960s and 1970s Kushner has found that there is not enough political discourse in contemporary American Theatre For this reason he writes his plays to shed special light on the politics of American society in the 1980s the 1990s and in the beginnings of the 21st century
