KRISHNAMURTI, On Love and Loneliness another volume in the series of Theme books is a compelling investigation of our intimate relationships with ourselves others and society Krishnamurti suggests that true relationship can come into being only when there is self knowledge of the conditions which divide and isolate individuals and groups It is only when the mind is not escaping in any form that it is possible to be in direct communion with that thing which we call loneliness the alone and to have communion with that thing there must be affection there must be love says

Krishnamurti **On Love and Loneliness** Jiddu Krishnamurti,1994-04-08 In 1950 Krishnamurti said It is only when the mind is not escaping in any form that it is possible to be in direct communion with that thing we call loneliness the alone and to have communion with that thing there must be affection there must be love On Love and Loneliness is a compelling investigation of our intimate relationships with ourselves others and society Krishnamurti suggests that true relationship can come into being only when there is self knowledge of the conditions which divide and isolate individuals and groups Only by renouncing the self can we understand the problem of loneliness and truly love On Love Joseph Cardinal Ratzinger ,2021-01-22 In these homilies most of which are previously unpublished Joseph Ratzinger now Pope Emeritus Benedict XVI addresses the theme he has celebrated pondered and witnessed by his life more than any other love For him love is the vital nucleus of the Church and to serve Christ is above all a question of love Peter do you love me Feed my sheep Jn 21 15 17 Love is also the quest of every human being on the journey toward eternity He beautifully states Christianity is a movement a journey it is not a theory a sum total of doctrine Christianity is life it is a vital impetus that carries us toward true life Someone who has found love can say I have found life Arranged by the liturgical seasons of the Church year the homilies predate the author's pontificate The earliest dates from 1970 while he was still a professor of theology Thus this collection traces the way Joseph Ratzinger has been enamored of the love of God throughout his years of serving the Church

The Intricacies of Love and Intimacy Ami Rokach,2024-08-30 This book explores the meaning of love and intimacy from a variety of perspectives specifically philosophical psychological and cultural This volume is a focussed study on what makes them and what may break love and intimacy Love and intimacy are central to us is sought by almost everyone and while we seem to know what they are they are not easily described The present volume includes eleven chapters which are divided into two parts The first part describes the meaning of love intimacy and romantic relations and the second highlights what may go wrong in such relationships and why The book explores theoretical debates and contemporary research around emotions and will be of interest to students and researchers of psychology philosophy as well as sex marriage and family therapists and counselors The chapters in this book were originally published in *The Journal of Psychology* *Hemingway on Love* Robert W. Lewis,2014-08-04 Love was a central theme of Ernest Hemingway s major works And although his passages on sexual love and on romantic love may be widely remembered and frequently quoted says Robert W Lewis in this scholarly and detailed consideration Hemingway s later work revealed his ultimate belief that brotherly love was the supreme love of mankind Eros Hemingway concluded was a neutral value neither good nor bad in itself but yet capable of complementing agape in giving man pleasure By examining the forms and essences of the various kinds of love Hemingway worked out an explanation and tentative solution to the troubles of the human condition The tradition of romantic love that had prevailed in Western literature had challenged sexual love and brotherly love and had been confused with them since the Middle Ages Hemingway s early work was destructive of romantic love says Lewis the work of his middle career was crucial in his exploration for the supreme love and the means to whatever peace and happiness man may achieve By the time he wrote *The Old Man and the Sea* his ethic was formulated and he could write conclusively of the trial and lesson of love in Western civilization in a way that reflected his discovery that true love must be a reciprocal blend of eros and agape between

man and woman man and man and man and his world **The Truth about Love** Elizabeth Currie,2005 The Truth About Love is an original philosophical theory which presents a comprehensive holistic model of the normal human psyche The purpose of the book is to reveal to the average person their own nature The Truth About Love is written in question and answer form which gives the advantage of allowing the reader to focus quickly on questions of personal interest and to reflect on each issue before moving on to a new concept The first section Love The Key comprises the central theory which explains the phenomenon of love You learn how love transcends its reputation as a romantic attachment to another person and gives you a basic premise for understanding most aspects of human nature The second section Emotion and Feeling gives a complete explanation of emotion and for the first time an explanation of feeling apart from emotion This new knowledge is used to examine old philosophical questions about human nature such as altruism creativity and happiness The third section Motivation relates the central theory to your everyday life giving structure and meaning to your thoughts and actions in a simple and concise way Also in this section is perhaps the most important application of the concepts of love emotion and feeling in an explanation of self love In conclusion you will discover how self love leads to optimum mental health and how this affects other areas of your life The Truth About Love provides answers that you cannot find in textbooks but that you ask yourself everyday They are simple questions and simple answers that will change your life It's All about Love Stephen Jensen,2000-09 What you think determines who you are and the type of life you have Your life can be full of love i e happiness peace trust good luck contentment and abundance or based on fear i e disease illness drama stress pain struggle hardship injury crime sadness loss anger disappointment violence loneliness and worry To change your life you must change yourself To do that you must change how you think This book is the definitive guide on how to do that The very simple and short answer is to have more LOVE in your life Although it s not always the obvious solution it is the only solution This book explains why love lets you have a better life including better health success in all your relationships abundance in all things and the real possibility of finally being able to have what you want It takes you on a healing journey of self discovery by providing a model to guide you to see who you are what you need to change about yourself and how to effortlessly and painlessly make those changes Once you have changed then you will attract even more love into your life and experience peace contentment and fulfillment *Teachings on Love (EasyRead Comfort Edition)* Nhất Hạnh (Thích.),1998
