The Great War as I Saw It (WWI Centenary Series) Frederick George Scott, 2016-03-10 May the ears of Canada never grow deaf to the plea of widows and orphans and our crippled men for care and support May the eyes of Canada never be blind to that glorious light which shines upon our young national life from the deeds of those Who counted not their lives dear unto themselves and may the lips of Canada never be dumb to tell to future generations the tales of heroism which will kindle the imagination and fire the patriotism of children that are yet unborn This book is part of the World War One Centenary series creating collating and reprinting new and old works of poetry fiction autobiography and analysis The series forms a commemorative tribute to mark the passing of one of the world s bloodiest wars offering new perspectives on this tragic yet fascinating period of human history Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context

With the "Die-Hards" in Siberia (WWI Centenary Series) John Ward, 2021-01-08 Originally written for the private use of my sons in case I did not return this narrative of events connected with the expedition to Siberia must of necessity lack many of the necessary elements which go to make a history I wrote of things as they occurred and recorded the reasons and motives which prompted the participants Many things have happened since which seem to show that we were not always right in our estimate of the forces at work around us Things are not always what they seem and this is probably more evident in the domain of Russian affairs than in any other It would have been comparatively easy to alter the text and square it with the results but that would have destroyed the main value of the story This book is part of the World War One Centenary series creating collating and reprinting new and old works of poetry fiction autobiography and analysis The series forms a commemorative tribute to mark the passing of one of the world s bloodiest wars offering new perspectives on this tragic yet fascinating period of human history Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its

this critique of the work The Human mind is so constituted that it becomes deadened by the weight of numbers needing the personal the individual to awaken its liveliest sympathies We read with pity and horror of the sufferings of a nation but that they may be brought really home to us become really vivid and forceful they must be embodied in some person or small group of persons And it is something of this embodiment which Mr Tracy has achieved in his latest book The Day of Wrath We have all read of burned villages murdered noncombatants tortured women all the horror and agony undergone by heroic Belgium in the cruel days of August and September 1914 Mr Tracy takes a little company of six people two of them English the others Belgium and shows us what happens to them during that awful time This book is part of the World War One Centenary series creating collating and reprinting new and old works of poetry fiction autobiography and analysis The series forms a commemorative tribute to mark the passing of one of the world s bloodiest wars offering new perspectives on this tragic yet fascinating period of human history Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context

Between the Lines (WWI Centenary Series) Boyd

Cable,2020-07-14 This book all of which has been written at the Front within sound of the German guns and for the most part within shell and rifle range is an attempt to tell something of the manner of struggle that has gone on for months between the lines along the Western Front and more especially of what lies behind and goes to the making of those curt and vague terms in the war communiqu s I think that our people at Home will be glad to know more and ought to know more of what these bald phrases may actually signify when in the other sense we read between the lines This book is part of the World War One Centenary series creating collating and reprinting new and old works of poetry fiction autobiography and analysis The series forms a commemorative tribute to mark the passing of one of the world s bloodiest wars offering new perspectives on this tragic yet fascinating period of human history Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context

Letters from France (WWI Centenary Series) C. E. W.

Bean,2016-03-10 These letters are in no sense a history except that they contain the truth They were written at the time and within close range of the events they describe Half of the fighting including the brave attack before Fromelles is left untouched on for these pages do not attempt to narrate the full story of the Australian Imperial Force in France They were written to depict the surroundings in which and the spirit with which that history has been made first in the quiet green

(WWI Centenary Series) Geoffrey H.
