David's Question Edward Reaugh Smith,2001 If ultimately there is only one reality then neither religion nor science can be fulfilled until they come together on a higher plane In this second volume of his authoritative anthroposophical commentary on the Bible Edward Reaugh Smith shows that there is no difference between true science and the divine intelligence sought by true religion The model for such a union of science and religion is the spiritual science developed by Rudolf Steiner In this union what the senses show us about the physical world when keenly observed and allowed to speak for itself instead of being abstracted into theories become images of the spiritual world As above so below Drawing on his extensive knowledge of the Bible the author shows us that anthroposophy provides unique insights into the biblical account Included are essays on Evolution Creation and Apocalypse The Four Elements As Above So Below Fire where Earth and Heaven meet Light the first form of corporeality from which all else follows Blood the meeting point of inner and outer worlds What Is Man how beings of
