The Proceedings of the International Conference on Information Engineering, Management and Security 2014 JBV Subramanyam, Kokula Krishna Hari K,2014-05-15 The Proceedings of the International Conference on Information Engineering Management and Security 2014 which happened at Christu Jyoti Institute of Technology   **Intelligent Innovations in Multimedia Data Engineering and Management** Bhattacharyya, Siddhartha,2018-09-07 With the ever increasing volume of data proper management of data is a challenging proposition to scientists and researchers and given the vast storage space required multimedia data is no exception in this regard Scientists and researchers are investing great effort to discover new space efficient methods for storage and archiving of this data Intelligent Innovations in Multimedia Data Engineering and Management provides emerging research exploring the theoretical and practical aspects of storage systems and computing methods for large forms of data Featuring coverage on a broad range of topics such as binary image fuzzy logic and metaheuristic algorithms this book is ideally designed for computer engineers IT professionals technology developers academicians and researchers seeking current research on advancing strategies and computing techniques for various types of data   Machine Learning for Healthcare Rashmi Agrawal,Jyotir Moy Chatterjee,Abhishek Kumar,Pramod Singh Rathore,Dac-Nhuong Le,2020-12-08 Machine Learning for Healthcare Handling and Managing Data provides in depth information about handling and managing healthcare data through machine learning methods This book expresses the long standing challenges in healthcare informatics and provides rational explanations of how to deal with them Machine Learning for Healthcare Handling and Managing Data provides techniques on how to apply machine learning within your organization and evaluate the efficacy suitability and efficiency of machine learning applications These are illustrated in a case study which examines how chronic disease is being redefined through patient led data learning and the Internet of Things This text offers a guided tour of machine learning algorithms architecture design and applications of learning in healthcare Readers will discover the ethical implications of machine learning in healthcare and the future of machine learning in population and patient health optimization This book can also help assist in the creation of a machine learning model performance evaluation and the operationalization of its outcomes within organizations It may appeal to computer science information technology professionals and researchers working in the area of machine learning and is especially applicable to the healthcare sector The features of this book include A unique and complete focus on applications of machine learning in the healthcare sector An examination of how data analysis can be done using healthcare data and bioinformatics An investigation of how healthcare companies can leverage the tapestry of big data to discover new business values An exploration of the concepts of machine learning along with recent research developments in healthcare sectors   **Digital-Forensics and Watermarking** Yun-Qing Shi,Hyoung Joong Kim,Fernando Pérez-González,Ching-Nung Yang,2015-06-24 This book constitutes the thoroughly refereed post conference proceedings of the 13th International Workshop on Digital Forensics and Watermarking IWDW 2014 held in Taipei Taiwan during October 2014 The 32 full and 14 poster papers presented together with 1 keynote

speech were carefully reviewed and selected from 79 submissions The papers are organized in topical sections on forensics watermarking reversible data hiding visual cryptography and steganography and steganalysis **Natural Resources Management and Sustainable Livelihoods in the Mountainous Region** Praveen Kumar Rai,Ashutosh Singh,Bobby Beingachhi,Suraj Kumar Singh,2024-07-27 This book explores the relationships between natural resources management sustainable livelihoods and integrated watershed management in the context of the mountainous region especially in the northeastern region of India The book also sheds light on the current state of regional issues identifies gaps in the existing practices and proposes future policies for effective conservation and sustainable development The environmental degradation in the northeastern region of India is basically attributed to the increasing biotic pressure on the fragile ecosystems in the absence of suitable investments and proper management practices to enhance and conserve the natural resources Population growth and poverty on the one hand and the pressure of rising demand from wealth and consumerism on the other hand have been exerting powerful pressure on the ecosystems Natural resources planning and management and sustainable livelihoods through integrated watershed management is not just a technical challenge it is also a social challenge The book is a valuable resource for policymakers researchers practitioners and stakeholders involved in natural resource management sustainable development and watershed management in the Himalayan region **Research Anthology on Artificial Intelligence Applications in Security** Management Association, Information Resources,2020-11-27 As industries are rapidly being digitalized and information is being more heavily stored and transmitted online the security of information has become a top priority in securing the use of online networks as a safe and effective platform With the vast and diverse potential of artificial intelligence AI applications it has become easier than ever to identify cyber vulnerabilities potential threats and the identification of solutions to these unique problems The latest tools and technologies for AI applications have untapped potential that conventional systems and human security systems cannot meet leading AI to be a frontrunner in the fight against malware cyber attacks and various security issues However even with the tremendous progress AI has made within the sphere of security it s important to understand the impacts implications and critical issues and challenges of AI applications along with the many benefits and emerging trends in this essential field of security based research Research Anthology on Artificial Intelligence Applications in Security seeks to address the fundamental advancements and technologies being used in AI applications for the security of digital data and information The included chapters cover a wide range of topics related to AI in security stemming from the development and design of these applications the latest tools and technologies as well as the utilization of AI and what challenges and impacts have been discovered along the way This resource work is a critical exploration of the latest research on security and an overview of how AI has impacted the field and will continue to advance as an essential tool for security safety and privacy online This book is ideally intended for cyber security analysts computer engineers IT specialists practitioners stakeholders researchers

academicians and students interested in AI applications in the realm of security research **Advances in Visual Computing** George Bebis,Richard Boyle,Bahram Parvin,Darko Koracin,Ryan McMahan,Jason Jerald,Hui Zhang,Steven Drucker,Kambhamettu Chandra,El Choubassi Maha,Zhigang Deng,Mark Carlson,2014-12-02 The two volume set LNCS 8887 and 8888 constitutes the refereed proceedings of the 10th International Symposium on Visual Computing ISVC 2014 held in Las Vegas NV USA The 74 revised full papers and 55 poster papers presented together with 39 special track papers were carefully reviewed and selected from more than 280 submissions The papers are organized in topical sections Part I LNCS 8887 comprises computational bioimaging computer graphics motion tracking feature extraction and matching segmentation visualization mapping modeling and surface reconstruction unmanned autonomous systems medical imaging tracking for human activity monitoring intelligent transportation systems visual perception and robotic systems Part II LNCS 8888 comprises topics such as computational bioimaging recognition computer vision applications face processing and recognition virtual reality and the poster sessions   Modern Post Scott Arundale,Tashi Trieu,2014-08-01 With the shift from film to digital today s filmmakers are empowered by an arsenal of powerful creative options with which to tell their story Modern Post examines and demystifies these tools and workflows and demonstrates how these decisions can empower your storytelling Using non technical language authors Scott Arundale and Tashi Trieu guide you through everything you should consider before you start shooting They begin with a look to past methodologies starting with traditional film techniques and how they impact current trends Next they offer a look at the latest generation of digital camera and capture systems The authors move on to cover Preproduction what camera is best for telling your story and why budgeting for post Production on set data management dailies green screen digital cinematography Postproduction RAW vs compressed footage editing visual effects color correction sound and deliverables including DCP creation The book features cutting edge discussion about the role of the digital imaging technician DIT how you can best use the Cloud motion graphics sound design and much more Case studies show you these solutions being applied in real world situations and the companion website features videos of techniques discussed in the book as well as timely updates about technological changes in the landscape www focalpress com cw arundale   **An Improved Lightweight Privacy Preserving Authentication Scheme for SIP-Based-VoIP Using Smart Card** Saeed Ullah Jan,2017-03-09 In the past few years secure information sharing became very popular in the area of immigration military applications healthcare education foreign affairs etc As secure communication utilizes both wireless and wired communication mechanizations for exchanging sensitive information security and privacy of the information exchange cannot be easily compromised To moderate the security integrity authenticity and privacy issues related to information exchange numerous authentication mechanisms have been recommended by different researchers in the literature in recent times but these are vulnerable to prospective security flaws such as masquerade insider replay impersonation password guessing server spoofing denial of service attacks and in addition have failed to deliver mutual

authentication In the past few years we have also witnessed a balanced growth in the acceptance of VoIP Voice over IP facilities because the numerous Web and VoIP applications depend on huge and extremely distributed infrastructures to process requests from millions of users in an appropriate manner Due to their extraordinary desires these large scale internet applications have frequently surrendered security for other objectives such as performance scalability and availability As a result these applications have characteristically favored weaker but well organized security mechanisms in their foundations Session Initiation Protocol SIP is an application and presentation layers signaling protocol that initiates modifies and terminates IP based multimedia sessions Implementing SIP for secure communication has been a topic of study for the past decade and several proposals are available in the research domain However security aspects are not addressed in most of these proposals because SIP is exposed to several threats and faces security issues at these layers Probes for SIP Session Initiation Protocol servers have been conveyed for many years To gather more details about these activities the author has designed a scheme for SIP servers in a network and composed data about some popular attacks Furthermore he explains his interpretations and guidance on how to prevent these attacks from being successful Biometrics a new field of research has also been dealt with in this research by means of a three factor authentication scheme in which one factor is biometrics   *Frontiers in Plant Science: 2020 Highlights* Frontiers in Plant Science Editorial Office,2021-04-30 The Editorial Office of Frontiers in Plant Science would like to thank all the Chief Editors Associate Editors and Review Editors that played an integral part in Frontiers innovative Collaborative Peer Review process in 2020 In particular we would like to recognize and thank Prof Joshua L Heazlewood our now former Field Chief Editor for his commitment support and enthusiasm for the Plant Science field Josh s dedication and leadership has helped Frontiers in Plant Science become the most cited journal in the field with a strong editorial community Looking forward we re excited to welcome Prof Yunde Zhao as our new Field Chief Editor in 2021 Having been with Frontiers in Plant Science since 2017 Yunde has contributed extensively to the development of the journal and will continue to ensure the journal goes from strength to strength

    Magnetic Resonance Imaging of Neurological Diseases in Tropics Rakesh K Gupta,Sunil Kumar,2014-01-30 Magnetic resonance imaging MRI is a scan that uses strong magnetic fields and radio waves to produce detailed images of the inside of the body This book is a comprehensive guide to the diagnosis and management of neurological infectious diseases using MRI Divided into four sections the text begins with an introduction to tropical diseases of the central nervous system and their epidemiology The second section provides in depth coverage of the technique of MRI from the basic principles to clinical application and more advanced features The following sections describe use of the technique for both infectious diseases including tuberculosis HIV and parasitic diseases and noninfectious conditions such as stroke poisoning and epilepsy Each chapter features numerous MRI and pathological images and extensive references Key points Comprehensive guide to diagnosis and management of neurological infectious diseases in tropics using MRI In depth coverage of the technique from

basics to more advanced aspects Covers MRI for both infectious and noninfectious conditions Includes nearly 300 MRI and pathological images **Fundamentals of Multimedia** Ze-Nian Li,Mark S. Drew,Jiangchuan Liu,2014-04-09 This textbook introduces the Fundamentals of Multimedia addressing real issues commonly faced in the workplace The essential concepts are explained in a practical way to enable students to apply their existing skills to address problems in multimedia Fully revised and updated this new edition now includes coverage of such topics as 3D TV social networks high efficiency video compression and conferencing wireless and mobile networks and their attendant technologies Features presents an overview of the key concepts in multimedia including color science reviews lossless and lossy compression methods for image video and audio data examines the demands placed by multimedia communications on wired and wireless networks discusses the impact of social media and cloud computing on information sharing and on multimedia content search and retrieval includes study exercises at the end of each chapter provides supplementary resources for both students and instructors at an associated website Susceptibility Weighted Imaging in MRI E. Mark Haacke,Jürgen R. Reichenbach,2014-03-25 MRI Susceptibility Weighted Imaging discusses the promising new MRI technique called Susceptibility Weighted Imaging SWI a powerful tool for the diagnosis and treatment of acute stroke allowing earlier detection of acute stroke hemorrhage and easier detection of microbleeds in acute ischemia The book is edited by the originators of SWI and features contributions from the top leaders in the science Presenting an even balance between technical scientific aspects of the modality and clinical application this book includes over 100 super high quality radiographic images and 100 additional graphics and tables **Proceedings of the Future Technologies Conference (FTC) 2018** Kohei Arai,Rahul Bhatia,Supriya Kapoor,2018-10-17 The book presenting the proceedings of the 2018 Future Technologies Conference FTC 2018 is a remarkable collection of chapters covering a wide range of topics including but not limited to computing electronics artificial intelligence robotics security and communications and their real world applications The conference attracted a total of 503 submissions from pioneering researchers scientists industrial engineers and students from all over the world After a double blind peer review process 173 submissions including 6 poster papers have been selected to be included in these proceedings FTC 2018 successfully brought together technology geniuses in one venue to not only present breakthrough research in future technologies but to also promote practicality and applications and an intra and inter field exchange of ideas In the future computing technologies will play a very important role in the convergence of computing communication and all other computational sciences and applications And as a result it will also influence the future of science engineering industry business law politics culture and medicine Providing state of the art intelligent methods and techniques for solving real world problems as well as a vision of the future research this book is a valuable resource for all those interested in this area Reservoir Model Design Philip Ringrose,Mark Bentley,2014-10-03 This book gives practical advice and ready to use tips on the design and construction of subsurface reservoir models The design elements cover rock architecture petrophysical

property modelling multi scale data integration upscaling and uncertainty analysis Philip Ringrose and Mark Bentley share their experience gained from over a hundred reservoir modelling studies in 25 countries covering clastic carbonate and fractured reservoir types The intimate relationship between geology and fluid flow is explored throughout showing how the impact of fluid type production mechanism and the subtleties of single and multi phase flow combine to influence reservoir model design Audience The main audience for this book is the community of applied geoscientists and engineers involved in the development and use of subsurface fluid resources The book is suitable for a range of Master s level courses in reservoir characterisation modelling and engineering Provides practical advice and guidelines for users of 3D reservoir modelling packages Gives advice on reservoir model design for the growing world wide activity in subsurface reservoir modelling Covers rock modelling property modelling upscaling and uncertainty handling Encompasses clastic carbonate and fractured reservoirs **Addressing Techniques of Liquid Crystal Displays** Temkar N. Ruckmongathan,2014-08-14 Unique reference source that can be used from the beginning to end of a design project to aid choosing an appropriate LCD addressing technique for a given application This book will be aimed at design engineers who are likely to embed LCD drivers and controllers in many systems including systems on chip Such designers face the challenge of making the right choice of an addressing technique that will serve them with best performance at minimal cost and complexity Readers will be able to learn about various methods available for driving matrix LCDs and the comparisons at the end of each chapter will aid readers to make an informed design choice The book will address the various driving techniques related to LCDs Due to the non linear response of the liquid crystal to external voltages different driving methods such as passive and active matrix driving can be utilized The associated theoretical basis of these driving techniques is introduced and this theoretical analysis is supplemented by information on the implementation of drivers and controllers to link the theory to practice Written by an experienced research scientist with over 30 years in R with the basic knowledge and historical background gained from the introductory chapters adequate for understanding the techniques that are presented in the remaining chapters making it a self contained reference
