Plants People And The Planet:

People & the Planet, 1992 *Plants, People, and the Planet: An Introduction to Horticulture (First Edition)* Nathaniel Mitkowski, Bridget Ruemmele, 2013-12-31 **The Third Report on The State of the World's Plant Genetic Resources for Food and Agriculture** Food and Agriculture Organization of the United Nations, 2025-03-24 Plant genetic resources for food and agriculture PGRFA are the essence of sustainable agrifood systems They encompass the genetic diversity in both improved and farmers varieties as well as in crop wild relatives wild food plants and breeding materials The third report on the State of the World's Plant Genetic Resources for Food and Agriculture presents a comprehensive assessment of the conservation and sustainable use of PGRFA as well as the human and institutional capacities to support these efforts Based on information from 128 countries and four regional and 13 international research centres and the contribution from over 1 600 experts it presents an overview of progress since 2012 as well as current needs and challenges in the future management of PGRFA The report provides a sound basis for recalibrating relevant policies and strategies including the rolling Global Plan of Action for Plant Genetic Resources for Food and Agriculture *The plants that feed the world* Food and Agriculture Organization of the United Nations, 2023-08-29 The availability of comprehensive and reliable information is crucial for developing evidence based policies and strategies for the conservation and use of plant genetic resources for food and agriculture Information on food and agricultural crops on their use interdependence demand supply and security is increasingly available but scattered through a number of information systems databases and scientific literature This study was undertaken by a team of international experts to pool together information from a wide range of sources in a user friendly manner and to develop a reproducible set of metrics and indicators complementing existing indicators The main global database sources consulted include FAOSTAT the Data Store of the International Treaty FAO WIEWS Genesys PGR GBIF PlantSearch the Svalbard Global Seed Vault's SeedPortal UPOV's PLUTO database and NCBI's Entrez database The resulting metrics were organized into five domains crop use interdependence demand supply and security The study includes findings about the importance of the Multilateral System of Access and Benefit sharing of the International Treaty the primary global operational mechanism to exchange plant germplasm needed for research and breeding around the world while pointing at gaps and possibilities to enable its growth A number of vignettes complete the study with information on contemporary issues on crop conservation and use to further showcase how the management of plant genetic diversity is evolving at present It is hoped that this publication will support countries researchers breeders and other stakeholders in prioritizing activities implementing multilateral frameworks and leading policy discussions related to plant genetic resources for food and agriculture **The Living Planet** Norman Maclean, 2023-04-20 This comprehensive volume describes the present state of wildlife on a global scale using a taxonomic approach **Biochar in Mitigating Abiotic Stress in Plants** Arafat Abdel Hamed Abdel Latef, 2024-10-31 Biochar for Mitigating Abiotic Stress in Plants provides a unique and leading

resource for utilizing biochar to address specific plant health challenges including osmotic ionic and oxidative stress With a focus on crop yielding plants the book provides targeted application insights to improve plant health and resulting crop production Readers will find important tools toward the identification treatment and management of a variety of abiotic stressors through the effective and appropriate application of biochar This is an important reference for those seeking to apply current knowledge and an inspiration for further research in the area Biochar is a carbon rich organic substance produced by the pyrolysis of organic materials in the absence or presence of oxygen It is an organic matter conditioner that can boost carbon sequestration and organic and inorganic pollutant immobilization It is a crucial method for soil regeneration Additionally biochar facilitates increasing mineral supply and soil organic matter resulting in soils with increased nutritional content Covers the latest evidence based approach in the diagnosis and management of plants under abiotic stress Includes easy to follow algorithms and key points Proposes options for sustaining crop production under the effects of climate change

Medicinal Plant Responses to Stressful Conditions

Arafat Abdel Hamed Abdel Latef,2023-05-11 Medicinal Plant Responses to Stressful Conditions discusses the effects of multiple biotic and abiotic stressors on medicinal plants It features information on biochemical molecular and physiological strategies used to mitigate or alleviate detrimental effects of biotic and abiotic stressors The book contains chapters featuring medicinal plants of importance covering subjects including genomics functional genomics metabolomics phenomics proteomics and transcriptomics under biotic and abiotic stress of medicinal plants and their molecular responses It suggests exogenous application of different types of stimulants to enhance medicinal plant production in such conditions Features Details all aspects of biotic and abiotic stressors in various important medicinal plant species Chapters cover evidence based approaches in the diagnosis and management of medicinal plants under stressful conditions Includes information on ways to mitigate effects from biotic stress diseases and pests or abiotic stress high salinity drought temperature extremes waterlogging wind high light intensity UV radiation heavy metals and mineral deficiencies A volume in the Exploring Medicinal Plants series this book is an essential resource for plant scientists botanists environmental scientists and anyone with an interest in herbal medicine

Plant Protection

Ravindra Soni,Deep Chandra Suyal,Reeta Goel,2022-10-24 Phyto pathogens are one of the dominating components which badly affect crop production In light of the global food demand sustainable agricultural plans utilizing agrochemicals became necessary The role of beneficial microbes in the defense priming of host plants has been well documented This book details new aspects of microbial assisted plant protection and their role in agricultural production economy and environmental sustainability

Arrivals and Departures

Otto Latva,Heta Lähdesmäki,Kirsi Sonck-Rautio,Harri Uusitalo,2024-09-23 This book explores the human relationship to changing biodiversity by bringing together multidisciplinary insights into human nature relations from the humanities New animal and plant species arrive and previously existing ones may disappear However the historical and social perspectives of the

changes have been understudied so far This book approaches the human relationship with changing biodiversity from three different angles belonging and non belonging emotions and environmental policy The question of belonging and non belonging is crucial when it comes to changing biodiversity The authors ask who decides where species can move and live and when invasive becomes native Similarly emotions have a big role in human nature relations The book shows why we grieve the loss of some species and hate some other species and how our emotions change over time The writers also aim to show how environmental policies or the practice of governing species are affected by societal discussion emotions scientific research and topical concepts as well as how these policies shape biodiversity and our perceptions of different species The authors provide fresh insights into human nature relations and explain why we need multidisciplinary approaches in order to fully understand their complexity

Animals, Plants and Afterimages Valérie Bienvenue,Nicholas Chare,2022-03-11 The sixth mass extinction or Anthropocene extinction is one of the most pervasive issues of our time Animals Plants and Afterimages brings together leading scholars in the humanities and life sciences to explore how extinct species are represented in art and visual culture with a special emphasis on museums Engaging with celebrated cases of vanished species such as the quagga and the thylacine as well as less well known examples of animals and plants these essays explore how representations of recent and ancient extinctions help advance scientific understanding and speak to contemporary ecological and environmental concerns

Medicinal Plants Sanjeet Kumar,2022-11-02 This book Medicinal Plants provides a comprehensive overview of plant species helpful for treating and preventing human diseases and disorders It also discusses how to obtain sustainable healthcare systems from nature and make harmony with currently available medicinal wealth ecology and the community
