Differentiated Instruction for the Middle School Math Teacher Karen E. D'Amico, Kate Gallaway, 2008-01-02

Differentiated Instruction for the Middle School Math Teacher is a practical and easy to use resource for teaching a standards based math curriculum to all learners. It gives you effective ways to present math concepts, shows how to provide opportunities for guided practice and offers ideas for modifying the material to provide access to the same content standard for all students in the inclusive classroom. This book also contains key strategies for collaborating with other professionals, suggestions for involving the students' families by tying math concepts to students' everyday lives and valuable assessment strategies. The lessons in the book cover middle school math topics correlated to the standards of the National Council of Teachers of Math, ranging from numbers and operations to problem solving and reasoning. Each lesson includes instructions for presenting the lesson to the whole class. Worksheets designed to help review and reinforce the concepts presented in each lesson. A section on how to adapt the lesson for the inclusive classroom including descriptions of different stations for different learners. A home school connection with family based everyday math activities. Suggestions for how to assess students' grasp of the concepts presented in the lesson.

Math Phonics - Pre-Geometry (ENHANCED eBook) Marilyn B. Hein, 2003-03-01. Introduce basic terms and concepts with hands on projects, wall charts, flash cards and math art pages. The comprehensive Math Phonics program uses rules, patterns and memory techniques similar to those found in language arts phonics and provides alternative or supplemental materials to help students understand, learn, appreciate and enjoy geometry. Also includes word problems and a section on metrics.

Numeracy Support Pack 9-2 Wendy Fortescue Hubbard, 2002. This series of resources provides comprehensive support for the Framework for Teaching Mathematics for Year 9 with particular emphasis on a three part mathematics lesson. The materials are fully linked to Key Maths and address the beginning and end of the typical lesson structure outlined in the Framework. The activities within the packs provide a variety of presentational models including opportunities for interactive oral work, direct teaching and paired or group activity work to encourage pupils to engage in mathematical conversation. The packs allow teachers to build resources such as number cards and fans. A wide range of data sets, graphs, tables and examples are included for photocopying or use on an OHP.
