

Population Math Worksheet – Answer Key

1. One thousand two hundred and seventy deer are living on an island that is eight hundred and thirty square kilometers in size. What is the population density of the deer per square kilometer?
 $1270/830 = 1.53$ deer per km^2
2. A city with 53,340 people has 876 births. What is the birth rate (as a percentage and per thousand)?
 $876/53340 = 16$ per thousand or 1.6%
3. Another city experiences 12 deaths for each thousand people. What is the death rate (as a percentage and per thousand)?
1.2% or 12 per 1000
4. A village of 23,473 people has 2,342 births and 473 deaths. What is the growth rate for this village?
 $\text{CBR} = 2342/23473 \times 1000 = 99.77$ $\text{CDR} = 473/23473 \times 1000 = 20.15$ $99 - 20 = 77$ per thousand
5. A small country of 744,785 people has 44,678 immigrants and 12,567 emigrants. They also experience 15,898 deaths and 35,665 births. What is the growth rate of this small country?
 $80,343 - 28,465 = 51887/744785 = .0697$ 6.97% or 69.7 per 1000
6. How many years will it take for this country to double its population? $70/7 = 10$ years
7. If a country were doubling its population every 35 years, what would its growth rate be? 2% ($70/35 = 2$)
8. At the end of 2002, there were 1,284.53 million people living in China. China is the third largest country in the world with an area of 9.6 million square kilometers. What is the population density of China?
 $1284.53/9.6 = 133.81$ million people per square kilometer
9. In 2002, 16.47 million babies were born in China. What was the birth rate (as a percentage and per 1000)?
 $16.47/1284.53 = 1.28\%$ or 12.8 per thousand
10. In 2002, 8.21 million people died in China. What was the death rate (as a percentage and per 1000)?
 $8.21/1284.53 = 0.64\%$ or 6.4 per 1000
11. What was the total overall growth rate of China's population in 2002? $12.8 - 6.4 = 6.4$ per 1000 or .64%
12. Using the rate from the previous question, how many years will it take for China's population to double?
 $70/0.64 = 109.38$ years
13. In 2000, there were 30,750,087 people living in Canada, which has a total area of 9,984,670 km^2 . What was the population density of Canada?
 $30750087/9984670 = 3.08$ people per km^2
14. In reality, there are a lot of fresh water lakes in Canada, about 891,163 km^2 of lakes. What was the population density of terrestrial Canada in 2000?
 $30750087/(9984670 - 891163) = 3.38$ people per km^2
15. In 1999 with a beginning population of 30,491,000 people, there were 335,500 births in Canada. What was the birth rate, expressed as per 1000?
 $335500/30491000 \times 1000 = 11$ births per 1000
16. In Canada during the same year there were 225,500 deaths, 205,711 immigrants and 41,142 emigrants. What was the growth rate for Canada?
 $[(335500 + 205711) - (225500 + 41142)] / 30491000 = 0.9\%$ or 9 per 1000
17. How many years will it take for Canada's population to double? $70/0.9 = 77.78$ years
18. The population density of California is about 82 people per km^2 . How much more densely populated is California than Canada (total area)?
 $82 - 3.08 = 78.92$ more people per km^2 in California

People Risk Management Keith Blacker, Patrick McConnell, 2015-04-03 People Risk Management provides unique depth to a topic that has garnered intense interest in recent years Based on the latest thinking in corporate governance behavioural economics human resources and operational risk people risk can be defined as the risk that people do not follow the organization's procedures practices and or rules thus deviating from expected behaviour in a way that could damage the business's performance and reputation From fraud to bad business decisions illegal activity to lax corporate governance people risk often called conduct risk presents a growing

challenge in today's complex dispersed business organizations Framed by corporate events and challenges and including case studies from the LIBOR rate scandal the BP oil spill Lehman Brothers Royal Bank of Scotland and Enron People Risk Management provides best practice guidance to managing risks associated with the behaviour of both employees and those outside a company It offers practical tools real world examples solutions and insights into how to implement an effective people risk management framework within an organization

Bioengineering Great Britain: Parliament: House of Commons: Science and Technology Committee,2010-03-25 This report finds that the UK has an excellent research base but is still failing to maximise its potential by translating research into wealth and health The road to economic recovery will depend in part on exploitation of the UK's research base which in turn requires efficient translation to generate returns on investments Some areas of bioengineering such as stem cells have clearly benefited from strong Government leadership and support backed up by generous levels of funding from both the public and private sectors Others such as genetically modified GM crops are less well supported and funded This is curious when GM crops are considered by the Government to be safe and offer potential benefits GM crops are certainly the poor cousin in the bioengineering family and we strongly urge the Government to signal its support for GM crops as well as improving the regulatory situation in Europe Regulation of bioengineering is complex and researchers have found that regulations inhibit research and translation either because of regulatory complexity stem cells or a flawed operation of the regulatory process GM crops There are good indications that the UK is learning from past experiences in bioengineering when handling new emerging technologies such as synthetic biology The Government and Research Councils have recognised the value of synthetic biology early and are providing funding The Committee is also concerned that while research is well funded there is not enough forethought about synthetic biology translation for example developing DNA synthesis capability which would provide the UK with an excellent opportunity to get ahead internationally If this is not addressed synthetic biology runs the risk of becoming yet another story of the UK failing to capitalise on a strong research base and falling behind internationally

Groupware: Design, Implementation, and Use Hugo Fuks,2005-09-12 This book constitutes the refereed proceedings of the 11th International Workshop on Groupware CRIWG 2005 held in Porto de Galinhas Brazil in September 2005 The 16 revised full papers and 13 revised short papers presented together with a keynote paper were carefully reviewed and selected from 67 submissions The papers are organized in topical sections on groupware development collaborative applications workflow management knowledge management computer supported collaborative learning group decision support systems mobile collaborative work and work modeling in CSCW

Global Science John W. Christensen,2000 *Studying Virtual Math Teams* Gerry Stahl,2010-05-03 Studying Virtual Math Teams centers on detailed empirical studies of how students in small online groups make sense of math issues and how they solve problems by making meaning together These studies are woven together with materials that describe the online environment and pedagogical orientation as well as reflections on the theoretical

implications of the findings in the studies The nature of group cognition and shared meaning making in collaborative learning is a foundational research issue in CSCL More generally the theme of sense making is a central topic in information science While many authors allude to these topics few have provided this kind of detailed analysis of the mechanisms of intersubjective meaning making This book presents a coherent research agenda that has been pursued by the author and his research group The book opens with descriptions of the project and its methodology as well as situating this research in the past and present context of the CSCL research field The core research team then presents five concrete analyses of group interactions in different phases of the Virtual Math Teams research project These chapters are followed by several studies by international collaborators discussing the group discourse the software affordances and alternative representations of the interaction all using data from the VMT project The concluding chapters address implications for the theory of group cognition and for the methodology of the learning sciences In addition to substantial introductory and concluding chapters this important new book includes analyses based upon the author's previous research thereby providing smooth continuity and an engaging flow that follows the progression of the research The VMT project has dual goals a to provide a source of experience and data for practical and theoretical explorations of group knowledge building and b to develop an effective online environment and educational service for collaborative learning of mathematics Studying Virtual Math Teams reflects these twin orientations reviewing the intertwined aims and development of a rigorous science of small group cognition and a Web 2.0 educational math service It documents the kinds of interactional methods that small groups use to explore math issues and provides a glimpse into the potential of online interaction to promote productive math discourse

King of Hollywood Robin Tamblyn, 2003-06-24 Charismatic volatile mysterious Danny Spain was a Hollywood enigma A rebellious child whose aggressive intensity later made him a striking screen presence he ruthlessly pursued success and soon captured an Academy Award but could never win that most elusive of trophies love Danny's best friend and sometime lover Benedict devotes himself to finding out the truth about Danny's life and death following his story from his humble birth in the Midwest in 1959 to his violent murder at the hands of a young male hustler forty years later Robin Tamblyn's debut novel *King of Hollywood* gives the reader an inside look at the life and death of a closeted Hollywood movie idol Written compellingly by a fresh new voice in fiction the novel chronicles the life of actor Danny Spain from his humble beginnings to his tragic and untimely demise The plot bubbles along merrily and draws the reader into the hidden world of a star who has much to hide An impressive debut Michael D Craig Author of *The Ice Sculptures A Novel of Hollywood*
