**The Puppet Master of Islam** Richard Bennett, 2022-09-01 To understand the dangers imposed upon the world by Allah Muhammad and the angel of light you must look at Islam through the eyes of Christianity Hal Lindsey one of the true futurist preachers of our time wrote in The Late Great Planet Earth that there are only two sources of the supernatural The God of the Bible followed by Christians and the god of this world followed by Muslims who is described as an angel of light 2 Corinthians 11:14 This is the angel that visited Muhammad and introduced Allah into the world In the beginning Muhammad thought he was possessed He spent years convincing himself that he was not Many however believe that what Muhammad suspected about demonic possession may be true It took a great deal of persuasion by Muhammad's first wife Khadija to convince him that his encounter may have been divine as opposed to demonic in origin She was instrumental in the birth of the prophet becoming a reality Discover the evil of Islam and how we know that the apparition that spoke to Muhammad was likely an evil spirit in The Puppet Master of Islam

**Reclaiming Religion from the Church** Frank Canatella, 2003-02 The first rule of life is survive And since we are necessarily social we must add the corollary together All oughts derive from this two part rule Most of us understand this intuitively if not explicitly The only issue to be resolved is how inclusive is our togetherness Is it just our tribe our nation the northern hemisphere Or must we include the whole human family These are the moral issues we must answer and they are empirical questions Behavior has consequences We have to ask ourselves Will such and such behaviors promote survival The answer can only come from the experience of the community Present demographics will not allow us to elude the question much longer Church rules can be faulted on a number of counts not the least of which is that God gave us the rules so they can't change even when experience indicates that they should Also the church leaders think the purpose of the rules is to save our souls and so our life here has been seriously neglected in many respects especially for the poor and the underclass because everything is supposed to be made right in the hereafter This I regard as backward It affirms those who oppress the poor Scientists make inferences from empirical data and the results are always subject to revision Church officials make inferences from myths and they are set in stone A good example is the doctrine of Original Sin that is presented as an occult event that causes all our problems and about which we can do nothing The church approved of slavery for the better part of two millennia because it was in place when the church was created and St Augustine justified it as one of the punishments resulting from Original Sin Clearly our problem is ignorance the kind we are born with and the kind we acquire through learning falsely I call this Ignorance II after Gregory Bateson's Learning II learning how to learn Ignorance II is a learning dead end learning how not to learn We very obviously do not always know how to act in our own best interests Our best chance of breaking out of this mold is through sharing the best of our communal experience to discover how to act in our own best interests in the long run This is how to develop a proper morality one we can all live with With a superior organization in place the church is positioned to unite us in the task of developing a proper morality However the church as presently structured can only evolve by backing into the future It claims to already know everything that is necessary to know so it has difficulty learning thus denying its human origin and makeup To change the church requires a spin on history that demonstrates a development and continuity with the past instead of just saying We have been wrong The People of God the true Church show signs of reclaiming religion through various dissident groups These groups do not yet recognize the intimate connection between morality and survival My hope is that this book will guide them toward that recognition

Dimitrovsky, 1991 *Emmanuel Levinas's Talmudic Turn* Ethan Kleinberg, 2021-10-19 In this rich intellectual history of the French Jewish philosopher Emmanuel Levinas's Talmudic lectures in Paris Ethan Kleinberg addresses Levinas's Jewish life and its relation to his philosophical writings while making an argument for the role and importance of Levinas's Talmudic lessons Pairing each chapter with a related Talmudic lecture Kleinberg uses the distinction Levinas presents between God on Our Side and God on God's Side to provide two discrete and at times conflicting approaches to Levinas's Talmudic readings One is historically situated and argued from our side while the other uses Levinas's Talmudic readings themselves to approach the issues as timeless and derived from God on God's own side Bringing the two approaches together Kleinberg asks whether the ethical message and moral urgency of Levinas's Talmudic lectures can be extended beyond the texts and beliefs of a chosen people religion or even the seemingly primary unit of the self Touching on Western philosophy French Enlightenment universalism and the Lithuanian Talmudic tradition Kleinberg provides readers with a boundary pushing investigation into the origins influences and causes of Levinas's turn to and use of Talmud No Man an Island James Udden, 2017-11-21 Taiwan is a peculiar place resulting in a peculiar cinema with Hou Hsiao hsien being its most remarkable product Hou's signature long and static shots almost invite critics to give auteurist readings of his films often privileging the analysis of cinematic techniques at the expense of the context from which Hou emerges In this pioneering study James Udden argues instead that the Taiwanese experience is the key to understanding Hou's art The convoluted history of Taiwan in the last century has often rendered fixed social and political categories irrelevant Changing circumstances have forced the people in Taiwan to be hyperaware of how imaginary identity above all national identity is Hou translates this larger state of affairs in such masterpieces as City of Sadness The Puppetmaster and Flowers of Shanghai which capture and perhaps even embody the elusive slippery contours of the collective experience of the islanders Making extensive use of Chinese sources from Taiwan the author shows how important the local matters for this globally recognized director In this new edition of No Man an Island James Udden charts a new chapter in the evolving art of Hou Hsiao hsien whose latest film The Assassin earned him the Best Director Award at the Cannes Film Festival in 2015 Hou breaks new ground in turning the classic wuxia genre into a vehicle to express his unique insight into the working of history The unconventional approach to conventions is quintessential Hou Hsiao hsien An excellent and groundbreaking volume This book's very precise analyses of the films as well as their context make it the primary source for any scholar working on Hou in English Chris Berry King's College London In this first book length study on Hou Hsiao hsien James Udden illuminates the most intriguing yet mystifying filmmaker in world cinema No Man an Island
