Obama and the Emergence of a Multipolar World Order Chris J Dolan, 2018-11-15 This book argues that critical international and domestic crises such as the U S war in Iraq and the Great Recession forced President Barack Obama to readjust U S foreign policy after over 70 years of American hegemony and defending the global status quo It examines the range of external pressures and challenges brought on by an increasingly multipolar international system shifting domestic political forces and limited foreign policy choices The book provides an overview of the extent of foreign policy change and continuity in Obama's foreign policy toward Europe Asia and the Pacific and the Middle East The book assesses domestic and international pressure points in the wake of the 2003 U S invasion of Iraq and the Great Recession that shaped and defined Obama's foreign policy preferences The war in Iraq and the Great Recession in addition to rising economic inequality and hyper partisanship at home emerging markets in Asia and the rise of China and Russian resurgence in Europe and the Middle East would determine and constrain the extent to which Obama was able to lead U S foreign policy and the foreign policymaking process These ultimately contributed to a more scaled back and limited U S role in the world during Obama's presidency culminating in the 2016 presidential election of Donald Trump who promised to turn the U S away from globalization and questioned longstanding U S alliances In the end the theme of nation building here at home under Obama gave way to America First under Trump

Urban Crime Control in Cinema Vladimir Rizov, 2023-02-11 This book uses popular films to understand the convergence of crime control and the ideology of repression in contemporary capitalism It focuses on the cinematic figure of the fallen guardian a protagonist who in the course of a narrative falls from grace and becomes an enemy of the established social order The fallen guardian is a figure that allows for the analysis of a particular crime control measure through the perspective of both an enforcer and a target The very notion of justice is challenged and questions are posed in relation to the role that films assume in the reproduction of policing as it is In doing so the book combines a historical far reaching perspective with popular culture analysis At the core remains the value of the cinematic figure of the fallen guardian for contemporary understandings of urban space and urban crime control and how

films are clear examples of the ways in which the ideology of repression is reproduced This book questions the justifications that are often given for social control in cities and understands cinema as a medium for offering critique of such processes and justifications Explored are the crime control measures of private policing in relation to RoboCop 1987 preventative policing and Minority Report 2002 mass incarceration in The Dark Knight Rises 2012 and extra judicial killing in Blade Runner 2049 2017 The book speaks to those interested in crime control in critical criminology cultural criminology urban studies and beyond

The Liberty to Take Fish Thomas Blake Earle, 2023-08-15 In *The Liberty to Take Fish* Thomas Blake Earle offers an incisive and nuanced history of the long American Revolution describing how aspirations to political freedom coupled with the economic imperatives of commercial fishing roiled relations between the young United States and powerful Great Britain The American Revolution left the United States with the liberty to take fish from the waters of the North Atlantic Indispensable to the economic health of the new nation the cod fisheries of the Grand Banks the Bay of Fundy and the Gulf of St Lawrence quickly became symbols of American independence in an Atlantic world dominated by Great Britain The fisheries issue was a near constant concern in American statecraft that impinged upon everything from Anglo American relations to the operation of American federalism and even to the nature of the marine environment Earle explores the relationship between the fisheries and the state through the Civil War era when closer ties between the United States and Great Britain finally surpassed the contentious interests of the fishing industry on the nation's agenda *The Liberty to Take Fish* is a rich story that moves from the staterooms of Washington and London to the decks of fishing schooners and into the Atlantic itself to understand how ordinary fishermen and the fish they pursued shaped and were in turn shaped by those far off political and economic forces Earle returns fishing to its once central place in American history and shows that the nation of the nineteenth century was indeed a maritime one

The Greater Gulf Claire Elizabeth Campbell, Edward MacDonald, Brian Payne, 2020-02-13 The largest estuary in the world the Gulf of St Lawrence is defined broadly by an ecology that stretches from the upper reaches of the St Lawrence River to the Gulf Stream and by a web of influences that reach from the heart of the continent to northern Europe For more than a millennium the gulf's strategic location and rich marine resources have made it a destination and a gateway a cockpit and a crossroads and a highway and a home From Vinland the Good to the novels of Lucy Maud Montgomery the Gulf has haunted the Western imagination A transborder collaboration between Canadian and American scholars *The Greater Gulf* represents the first concerted exploration of the environmental history marine and terrestrial of the Gulf of St Lawrence Contributors tell many histories of a place that has been fished fought over explored and exploited The essays defining themes resonate in today's charged atmosphere of quickening climate change as they recount stories of resilience played against ecological fragility resistance at odds with accommodation considered versus reckless exploitation and real imagined and imposed identities Reconsidering perceptions about borders and the spaces between and across land and sea *The Greater Gulf* draws attention to a central place and part of North

Atlantic and North American history Contributors include Rainer Baehre Memorial University of Newfoundland Jack Bouchard Folger Institute Claire Campbell Bucknell University Caitlin Charman Memorial University of Newfoundland Jack Little Simon Fraser University Edward MacDonald University of Prince Edward Island Matthew McKenzie University of Connecticut Suzanne Morton McGill University Brian Payne Bridgewater State University John G Reid St Mary's University and Daniel Soucier University of Maine

The Sea in World History Stephen K. Stein, 2017-04-24 This two volume set documents the essential role of the sea and maritime activity across history from travel and food production to commerce and conquest In all eras water transport has served as the cheapest and most efficient means of moving cargo and people over any significant distance Only relatively recently have railroads and aircraft provided an alternative Most of the world's bulk goods continue to travel primarily by ship over water Even today 95 percent of the cargo that enters and leaves the United States does so by ship Similarly people around the world rely on the sea for food and in recent years the sea has become an important source of oil and other resources with the longterm effects of our continuing efforts to extract resources from the sea further highlighting environmental concerns that range from pollution to the exhaustion of fish stocks This chronologically organized two volume reference addresses the history of the sea beginning with ancient civilizations 4000 to 1000 BCE and ending with the modern era 1945 to the present day Each of the eight chapters is further broken down into sections that focus on specific nations or regions offering detailed descriptions of that area of the world and shorter entries on specific topics individuals and events The book spans maritime history covering major seafaring peoples and nations famous explorers travelers and commanders events battles and wars key technologies including famous ships important processes and ongoing events such as piracy and the slave trade and more Readers will benefit from dozens of primary source documents ranging from ancient Egyptian tales of seafaring to texts by renowned travelers like Marco Polo Zheng He and Ibn Battuta that provide firsthand accounts from the age of discovery as well as accounts of battle from World War I and II and more modern accounts of the sea

Electric Boats and Ships Kevin Desmond, 2017-10-05 Electric propulsion for boats was developed in the early 19th century and despite the advent of the internal combustion engine continued with the perfecting of the modern turbo electric ship Sustainable and hybrid technologies pioneered in small inland watercraft toward the end of the 20th century have in recent years been scaled up to create integrated electric drives for the largest ocean going vessels This comprehensive history traces the birth and rebirth of the electric boat from 1835 to the present celebrating the Golden Age of electric launches 1880 1910

Border Security Peter Chambers, 2017-09-27 What kind of a world is one in which border security is understood as necessary How is this transforming the shores of politics And why does this seem to preclude a horizon of political justice for those affected Border Security responds to these questions through an interdisciplinary exploration of border security politics and justice Drawing empirically on the now notorious case of Australia the book pursues a range of theoretical perspectives including Foucault's work on power the systems theory of Niklas Luhmann and the cybernetic ethics of Heinz Von Foerster in order to formulate an account of the thoroughly constructed and political nature of border security Through this detailed and critical engagement the book's analysis elicits a political alternative to border security from within its own logic thus signaling at least the beginnings of a way out of the cost cruelty and devaluation of life that characterises the enforced reality of the world of border security

Strategic Management in Tourism, 3rd Edition. CABI Tourism Texts

Luiz Moutinho, Alfonso Vargas-Sanchez, 2018-02-26 This comprehensive textbook has at its core the importance of linking strategic thinking with action in the management of tourism It provides an analytical evaluation of the most important global

trends as well as an analysis of the impact of crucial environmental issues and their implications Now in its third edition and reviewing the major factors affecting international tourism management this well established student resource provides an essential overview of strategic management for students and professionals in the tourism sector **Making Citizenship**

Work Rodolfo Rosales, 2022-08-24 Making Citizenship Work seeks to address questions of how a community reaches a place where it can actually make citizenship work A second question addressed is What does citizenship represent to different communities Across thirteen chapters a collection of experts traverse multiple disciplines in analyzing citizenship from different points of access Each chapter revolves around the premise that empowerment of communities and individuals within the community comes in different forms and is governed by multiple needs and visions Authors utilize case studies to demonstrate the different roles that communities from a broad sector of our society adopt to accomplish constructing democratic processes that reflect their goals needs and cultures Concurrently authors address the structural obstacles to the empowerment of communities arguing that the democratic process does not and cannot accommodate the diverse communities of society within a single universalistic model of citizenship They conclude that fundamentally citizenship is not simply a legal right an obligation a state of rights but a practice an action on the behalf of community Making Citizenship Work challenges conventional thinking about politics while also encouraging readers to go beyond the box that deters us from visualizing a human society It is an ideal book for undergraduate and graduate courses in political science sociology history social work and Ethnic Studies History Lover's Guide to the South Shore, A Zachary Lamothe, 2020 The South

Shore is an intriguing mix of antiquity and modernity The region's first settlement Plymouth is a top tourist destination as more than one million visitors flock to it annually Quincy showcases the region's Revolutionary War past but even more of its fascinating sites are hidden behind an urban facade Along windswept beaches and cranberry bogs the varied terrain is unique and captivating From the birthplace of Abigail Adams in Weymouth to the historical houses of Hingham and the Old Scituate Light author Zachary Lamothe uncovers the stories behind some of the most notable people and landmarks in New England

Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
