

Guide and Hints to write engineering research paper

Authors: Mohamed Fezari and Ali AL-Dahood

The engineering field is not typically known for its literary style or its compelling prose, in large measure because engineering is better known as an applied field with experiment and measurements than a theoretical one. Most engineering students expect to spend their time working with mathematical equations and applying these equations to discover engineering solutions rather than researching term papers. But engineering is a discipline with an academic component, and research is an essential element of its academic aspect. In short, if you're a student in an engineering program, you need to be able to write a great research paper just as much as you need to be able to solve complex mathematical problems. And make experiments.

However, many students in application-based fields like engineering are much more comfortable with numbers and labs-work than they are with words. Because of this, research papers can be challenging for them. Fortunately, there are a few key steps we can follow to write a good and interesting engineering research paper..

Guide to write Engineering research Paper

- **Plan your research early:** Many students who are less comfortable with research paper writing tend to wait to research as they write, but this creates problems. First, it means that you are wasting time going back and revising for each new piece of information rather than starting with a complete understanding of your topic. Second, it also means that you will be scrambling to research as you write, costing you time through inefficiency and redundancy. Instead, the better choice is to start your research process as quickly as possible in order to give yourself time to analyze and digest what you are reading and to develop original ideas about what the research has to say about your topic. Separating the research process from the writing process will help you to develop stronger ideas and prepare for the writing process, making the actual writing of your paper that much faster and more efficient.
- **Use only the most current research:** While there are some cases where historical articles can be important for understanding the development of an idea, you will want to use current research to support your analysis. Current research keeps you abreast of the latest information in you field. This is especially important because of the changing nature of engineering. New information and new approaches can render older ways of doing things obsolete. You want to ensure that your paper is the

How to Draft a Pattern Shigeko Rustin, 2015-01-09 The Essential Guide to Custom Design This book a How To manual provides properly sequenced techniques from the mid 1800 s or earlier when all garments were made by hand which reflected expert craftsmanship in the process as well as appearance The concepts of wearing clothing and being tastefully dressed are both universal and ancient yet modern Access to quality fabrics and well constructed garments with timeless lines was often reserved for the wealthy powerful and or socialites This means the taste and desire of larger parts of society went generally ignored Some form and use of apparel has been a perpetual need in the human experience throughout most cultures around the globe Regardless of the status career body proportion or geographical location you now have access The wise person asks for insight In a day gone by they would have called it redeeming the time It means buying up the opportunities and possibilities unique to each season of ones life How to Draft a Pattern provides that insight Why Wait The techniques for properly measuring the human body are illustrated in crystal clear detail to ensure the proper fit of any garment you construct

Tao of Composition Stuart Kantor, William Storey (Teacher), 2003-06-26 With the Tao of Composition no longer does producing a paper become a tedious process filled with endless redundancies and plagiarism Now students can learn and apply a basic organizational structure to their writing without wondering how to construct the basic elements of any academic essay No longer will you have to sit in front of the computer the night before the paper is due and regurgitate stream of consciousness drivel connected loosely with evidence

Art A La Carte: First Nations Gr. 4-7 Vanessa Isitt, 1997-01-01 This creative unit introduces the arts of First Nations peoples from North America Asia Egypt and Australia These step by step guided art lessons impart the basic styles and shapes used by each culture as well as exploring the special use of color particular to each culture One preferred strategy is for the teacher to demonstrate the steps with students following along creating a rough draft This allows students to make mistakes and practice the various techniques resulting in a better final product Although each lesson stands on its own it is better to teach them in order as the techniques being explored become progressively more difficult This Art lesson provides a teacher and student section with a variety of step by step student projects and evaluation to create a well rounded lesson plan
