Michael Falser

On Bosse Ici On Reste Ici:

Republican Citizens, Precarious Subjects Jeremy F. Lane, 2020 Over recent decades concerns at the increased scarcity and precarity of salaried employment have dominated political struggles theoretical debates and cultural representations in France This study argues that such concerns are evidence of a profound shift in contemporary French economy culture and society Engaging with work in political economy and sociology the book sketches a new interpretative framework the better to understand the nature and implications of these profound changes It examines the challenges such changes have posed to fundamental French republican values arguing they have opened up a rift between older notions of French republican citizenship and the precarious forms of subjectivity characteristic of post Fordist labour The book traces the symptoms of this rift in a range of cinematic and literary representations of the contemporary workplace as these depict the dilemmas faced the trajectories followed and the geographical regions inhabited by French workers of different ages sexes social classes and ethnicities

Everyday Resistance Bruno Frère, Marc Jacquemain, 2019-10-04 This book studies those who in various domains of life are resisting the increasingly harsh day to day pressures of late capitalism centering mainly on French examples Far from the global euphoria of the sixties and seventies everyday people are trying to loosen the grip of injustice in very concrete ways people experiencing homelessness try to occupy and live in empty buildings collectives of small farmers and consumers avoid long and costly commercial supply chains to defend their common interests students and teachers organize to prevent the expulsion of undocumented migrants and activists in the free software movement fight for the common ownership of software and of the Internet Through civil disobedience in the midst of daily life people are trying to resist work against and change laws that protect the interests of firms and corporations considered socially or ecologically unfair

Cultural Heritage as Civilizing Mission Michael Falser, 2015-03-04 This book investigates the role of cultural heritage as a constitutive dimension of different civilizing missions from the colonial era to the present It includes case studies of the Habsburg Empire and German colonialism in Africa Asian case studies of post colonial India and the Dutch East Indies Indonesia China and French Indochina and a special discussion on 20th century Cambodia and the temples of Angkor The themes examined range from architectural and intellectual history to historic preservation and restoration Taken together they offer an overview of historical processes spanning two centuries of institutional practices wherein the concept of cultural heritage was appropriated both by political regimes and for UNESCO World Heritage agendas

The Atlas of Migration in Europe Migreurop, 2019-05-30 This book follows the journeys of those fleeing war poverty or political crises risking their lives as they attempt to find sanctuary in Europe Over the past 25 years almost 40 000 migrants have been reported missing or died due to drowning or exhaustion on the borders of Europe 6 000 migrants died in 2016 alone making it the deadliest year on record Growing numbers of arrivals since 2015 have caused a wave of panic to sweep across the countries of the European Union which has responded with an increasingly entrenched policy the only one it considers

appropriate of fortifying its external borders As a result numerous walls and fences have sprung up to regulate the flows new camps have been opened and reception centres have been set up beyond the frontiers of Europe all accompanied by the steady militarisation of surveillance and repression The EU has thus been just as active in precipitating this migrant crisis as it has been in prolonging its effects Indeed this crisis calls into question the entire European system for border management and policies on immigration and reception Deconstructing preconceptions changing the way we see others probing borders and mapping the nexus of control and detention the collection of articles maps photographs and illustrations in this Atlas provide an important critical geography of migration policies Perfect for journalists activists students of geopolitics at school or university this Atlas seeks above all to give migrants a voice

Constructing Muslims in France Jennifer

Fredette,2014-02-17 Argues that the elite public discourse creates and reinforces the cultural divide it rails against

Costa-Gavras John J. Michalczyk,Susan A. Michalczyk,2022-07-14 Costa Gavras Encounters with History explores the life and work of the director intertwined with historical and socio political events from the early stages of his career emigrating to France from Greece in 1955 and first studying at the Sorbonne then focusing on filmmaking at IDHEC now La F mis He became an internationally respected director first with his Oscar award winning film Z 1969 and continued with a vast array of films including his most recent work Adults in the Room 2019 His films portray the complexities of human nature relationships challenged by historical and contemporary socio political issues In this overview of the director s films the authors shed light on his encounters with history from his youth in war torn Greece to his later films on immigration unemployment global capitalistic greed and the abuse of political and economic power in Europe Costa Gavras films have spanned several decades and several continents to combat unethical laws and injustice oppression legal illegal violence and torture Throughout his evolution in the world of cinema for over half a century as director writer and producer Costa Gavras has told human interest stories that entertain and inspire and that help us better understand ourselves and a fragile fragmented world

An Introduction to Immigrant Incorporation Studies Jan Rath,Marco Martiniello,2025-10-01 Focusing mainly on the European experience including Eastern Europe this important volume offers an advanced introduction to immigrant incorporation studies from a historical empirical and theoretical perspective Beyond incorporation theories renowned scholars in the field explore incorporation in action in different fields policy issues and normative dimensions

The Elgar Companion to Regulating Platform Work Kurt Vandaele,Silvia Rainone,2025-03-12 Multidisciplinary in scope The Elgar Companion to Regulating Platform Work comprehensively analyses the dynamics and trends of the app based food delivery sector in the platform economy Adopting a comparative approach it examines the regulatory developments in the field at EU level and beyond

Democracy and the Welfare State Alice Kessler-Harris,Maurizio Vaudagna,2017-10-31 After World War II states on both sides of the Atlantic enacted comprehensive social benefits to protect working people and constrain capitalism A widely shared consensus specifically linked social welfare to democratic

citizenship upholding greater equality as the glue that held nations together Though the two Wests Europe and the United States differ in crucial respects they share a common history of social rights democratic participation and welfare capitalism But in a new age of global inequality welfare state retrenchment and economic austerity can capitalism and democracy still coexist In this book leading historians and social scientists rethink the history of social democracy and the welfare state in the United States and Europe in light of the global transformations of the economic order Separately and together they ask how changes in the distribution of wealth reshape the meaning of citizenship in a post welfare state era They explore how the harsh effects of austerity and inequality influence democratic participation In individual essays as well as interviews with Ira Katznelson and Frances Fox Piven contributors from both sides of the Atlantic explore the fortunes of the welfare state They discuss distinct national and international settings speaking to both local particularities and transnational and transatlantic exchanges Covering a range of topics the lives of migrant workers gender and the family in the design of welfare policies the fate of the European Union and the prospects of social movements Democracy and the Welfare State is essential reading on what remains of twentieth century social democracy amid the onslaught of neoliberalism and right wing populism and where this legacy may yet lead us

The Transnationalized Social Question Thomas Faist, 2019 The social question is back Yet today's social question is not primarily between labour and capital as it was in the nineteenth century and throughout much of the twentieth The contemporary social question is located at the interstices between the global South and the global North It finds its expression in movements of people seeking a better life or fleeing unsustainable social political economic and ecological conditions It is transnationalized not only because migrants and their significant others entertain ties across the borders of national states staying in touch with family and friends receiving or sending financial remittances in transnational social spaces Also of importance are cross border recruitment schemes for workers and the cross border diffusion of norms appealed to in the case of migration for example the social right to decent work as a human right Moreover migration can become an issue of inclusion or exclusion in fields important to life chances in the emigration transit or immigration states a transnationalization of national states And as in the nineteenth century political conflicts arise constituting the social question as a public concern In earlier periods class differences dominated conflicts While class has always been criss crossed by manifold heterogeneities not least of all cultural ones around ethnicity religion and language it is these latter heterogeneities that have sharpened in situations of immigration and emigration over the past decades Casting a wide net in terms of conceptual and empirical scope this book tackles both the social structure and the politics of social inequalities It sets a comprehensive agenda for research which also includes the public role of social scientists in dealing with the transnationalized social question
