

The background of the cover features three sleek, black, bullet-shaped spacecraft flying diagonally across a golden-yellow sky. Each ship has a white smoke trail and a red-tipped nose. Below them, a large, red, spherical planet or moon is partially visible, with several searchlights or spotlights mounted on its surface, casting beams of light upwards towards the ships. The overall scene suggests a high-stakes chase or battle in space.

captain's log book and evolves into something more like a really warped and twisted TV show in text. Follow the Captain and crew on a series of seemingly random adventures where it's obvious it's not just the Captain who's been drinking. At some point you may ask yourself is all this just coincidence or is there something dark and annoying on the horizon. The Captain seems to have a drinking problem the problem being he never has enough to drink and people from his past keep showing up and ruining his buzz. Akki a corrupted artificial intelligence who occasionally takes over the Captain's log has his own plans mostly self-serving ones because he has nothing better to do. The rest of the crew: pirates, hot chicks, robots, and a foul-beaked little space penguin round out the Drunken Space Pirates and with all the wise cracks and shots aimed at everyone and everything it's clear the alcohol flows rather freely within the D S P. Many of the off-the-wall characters of the D S P are walking guilty pleasures who say what they feel, do what they want, and just generally give it to life, pop culture, and the universe in general with both barrels and occasionally fish.

Back in the Spaceship Again Karen

Sands-O'Connor, Marietta Frank, 1999-08-30 Much literature for children appears in the form of series in which familiar characters appear in book after book. In the late nineteenth and early twentieth century authors began to write science fiction series for children. These early series generally had plots that revolved around inventions developed by the protagonist. But it was the development and use of rocket and atomic science during World War II that paved the way for interesting and exciting new themes, conflicts, and plots. While much has been written about the early juvenile science fiction series, particularly the Tom Swift books, comparatively little has been written about children's science fiction series published since 1945. This book provides a broad overview of this previously neglected topic. The volume offers a critical look at the history, themes, characters, settings, and construction of post-1945 juvenile science fiction series including the A I Gang, the Animorphs, Commander Toad, Danny Dunn, Dragonfall, Five the Magic School Bus, and Space Cat. The book begins with an introductory history of juvenile science fiction since 1945, with chapters then devoted to particular topics. Some of these topics include the role of aliens and animals, attitudes toward humor, the absence and presence of science, and the characterization of women. A special feature is an appendix listing the various series. In addition, the volume provides extensive bibliographical information.
