Developmental Perspectives on Motivation Janis E. Jacobs, 1993-01-01 Some of the best current work on the development of motivation is presented in this fortieth volume of the Nebraska Symposium on Motivation The diverse approaches for conceptualizing and studying motivational development psychology that extends the traditional area of achievement motivation Some major themes emerge the conceptualization of the self the internal and external factors that affect development of motivations and the choices that result from one's motivations Richard Ryan's opening chapter places the entire work in context by describing historical and theoretical perspectives on developmental and psychosocial models used to understand motivation Mihaly Csikszentmihaly and Kevin Rathunde also focus on intrinsic motivation but with a greater focus on flow the experience of full involvement with an activity Susan Harter discusses the roles of the I self and the me self research models Jacquelynne S Eccles stresses the link between the social contexts of family and school and the motivational constructs related to achievement and choice of activity Laura L Carstensen maintains Eccles's focus on the importance of choice of activity but concentrates on the later stages in life when social contact declines as a result of changing social and emotional motivations The volume concludes with a summary analyzing the contributors' descriptions of the diverse but complementary aspects of developmental processes and theory

Using Images to Teach Critical Thinking Skills Diane M. Cordell, 2015-11-10 Learn how to teach visual literacy through photography an easy way for you to combine student interest with resources at hand to enhance a key learning skill Research indicates that 75 to 90 percent of classroom learning occurs through the visual system making visual literacy a key component of information literacy and of critical thinking a requirement throughout the Common Core standards It's no surprise then that visual literacy is increasingly recognized as a competency that should be part of every student's skill set Fortunately this critical skill can be incorporated into existing curriculum and this book shows you how to do just that Written for K-12 classroom teachers and librarians this all you need to know volume discusses the importance of visual literacy in education and examines how it helps address current learning standards The book shows you

how to use photography and digital images to cultivate critical thinking inquiry and information literacy provides examples of the use of photographic images in the classroom and in real life and addresses how students can be ethical practitioners in a digital world In addition the book includes sample lessons you can easily implement regardless of your level of technical and photographic expertise A resource list of photo editing curation and museum sites is included
