Manual of the Western Front Stephen Bull, 2019-06-27 A compelling insight into the lives of the soldiers behind the war that not only changed the direction of world affairs but also brought with it a modernised mechanised style of warfare Many people have the idea that the Great War on the Western Front was simple if ghastly to fight with few tactics and unbroken monotonous trench lines as the main feature of the battlefield In such a scenario the archetypal image of battle is of soldiers with rifles and bayonets charging each other in blind obedience to stupid repetitious orders Though undeniably bloody the war was in fact a ferment of new ideas and new weapons Gas flame throwers super heavy artillery concrete bunkers tanks aircraft and other innovations were all introduced whilst older notions such as barbed wire machine guns and armour took on a new lease of life No single manual was ever enough to encompass modern war and even before 1914 numerous publications were required With the focus on the Western Front and the soldiers fighting there this unique compendium collects together a huge variety of contemporary manuals leaflets and booklets and shows how although operations often failed British commanders made attempts to devise new tactics and weaponry **Human Freedom, Divine Knowledge,**

and Mere Molinism Timothy A. Stratton, 2020-10-02 Does humanity possess the freedom to think and act or are we always caused and determined to think and act exactly how we think and act by things outside of our control If we are always causally determined to think and act by things outside of our control then how can humans be genuinely responsible for any of our thoughts or following actions However if humanity is genuinely free and responsible for at least some of our thoughts and actions then how can the Christian rationally affirm the doctrine that God is totally sovereign and predestines all things In Human Freedom Divine Knowledge and Mere Molinism Timothy A Stratton surveys the history of theological thought from Augustine to Edwards and reaches surprising historical conclusions supporting what he refers to as limited libertarian freedom Stratton goes further to offer multiple arguments appealing to Scripture theology and philosophy that each conclude humanity does in fact possess libertarian freedom He then appeals to the work of Luis de Molina and offers unique

arguments concluding that God possesses middle knowledge If this is the case then God can be completely sovereign and predestine all things without violating human freedom and responsibility *Mental Health of Refugees* Paul M.G.

book is in three parts The first two Miss Keller s story and the extracts from her letters form a complete account of her life as far as she can give it Much of her education she cannot explain herself and since a knowledge of that is necessary to an understanding of what she has written it was thought best to supplement her autobiography with the reports and letters of her teacher Miss Anne Mansfield Sullivan The addition of a further account of Miss Keller s personality and achievements may be unnecessary yet it will help to make clear some of the traits of her character and the nature of the work which she and her teacher have done For the third part of the book the Editor is responsible though all that is valid in it he owes to

authentic records and to the advice of Miss Sullivan The Editor desires to express his gratitude and the gratitude of Miss Keller and Miss Sullivan to The Ladies Home Journal and to its editors Mr Edward Bok and Mr William V Alexander who have been unfailingly kind and have given for use in this book all the photographs which were taken expressly for the Journal and the Editor thanks Miss Keller s many friends who have lent him her letters to them and given him valuable information especially Mrs Laurence Hutton who supplied him with her large collection of notes and anecdotes Mr John Hitz Superintendent of the Volta Bureau for the Increase and Diffusion of Knowledge relating to the Deaf and Mrs Sophia C Hopkins to whom Miss Sullivan wrote those illuminating letters the extracts from which give a better idea of her methods with her pupil than anything heretofore published

Crafting History Albena Yaneva,2020-11-15 What constitutes an archive in architecture What forms does it take What epistemology does it perform What kind of craft is archiving *Crafting History* provides answers and offers insights on the ontological granularity of the archive and its relationship with architecture as a complex enterprise that starts and ends much beyond the act of building or the life of a creator In this book we learn how objects are processed and catalogued how a classification scheme is produced how models and drawings are preserved and how born digital material battles time and technology obsolescence We follow the work of conservators librarians cataloguers digital archivists museum technicians curators and architects and we capture archiving in its mundane and practical course Based on ethnographic observation at the Canadian Centre for Architecture and interviews with a range of practitioners including Ivaro Siza and Peter Eisenman Albena Yaneva traces archiving through the daily work and care of all its participants scrutinizing their variable ontology scale and politics Yaneva addresses the strategies practicing architects employ to envisage an archive based future and tells a story about how architectural collections are crafted so as to form the epistemological basis of architectural history
