Calls and Responses Tim A. Ryan,2008-06-01 In this comprehensive groundbreaking study Tim A Ryan explores how American novelists since World War I have imagined the

institution of slavery and the experience of those involved in it Complicating the common assumption that authentic black authored fiction about slavery is starkly opposed to the traditional racist fiction and history created by whites Ryan suggests that discourses about American slavery are and have always been defined by connections rather than disjunctions Ryan contends that African American writers didn't merely reject and move beyond traditional portrayals of the black past but rather actively engaged in a dynamic dialogue with white authored versions of slavery and existing historiographical debates The result is an ongoing cultural conversation that transcends both racial and disciplinary boundaries and is akin to the call and response style of African American gospel music Ryan addresses in detail more than a dozen major American novels of slavery from the first significant modern fiction about the institution Margaret Mitchell's *Gone with the Wind* and Arna Bontemps's *Black Thunder* both published in 1936 to recent noteworthy novels on the topic Edward P Jones's *The Known World* and Valerie Martin's *Property* both published in 2003 His insistence upon the necessity of interpreting novels about the past directly in relation to specific historical scholarship makes *Calls and Responses* especially compelling He reads Toni Morrison's *Beloved* not in opposition to a monolithic orthodoxy about slavery but in relation to specific arguments of controversial historian Stanley Elkins Similarly he analyzes William Styron's *The Confessions of Nat Turner* in terms of its rhetorical echoes of Frederick Douglass's famous autobiographical narrative Ryan shows throughout *Calls and Responses* how a variety of novelists including Alex Haley Octavia Butler Ishmael Reed Margaret Walker and Frances Gaither engage in a dynamic debate with each other and with such historians as Herbert Aptheker Charles Joyner Eugene and Elizabeth Genovese and many others A substantially new account of the development of American slavery fiction in the last century *Calls and Responses* goes beyond merely exalting the expression of black voices and experiences and actually reconfigures the existing view of the American novel of slavery

Financing the American Dream Lendol Calder, 2009-07-01 Once there was a golden age of American thrift when citizens lived sensibly within their means and worked hard to stay out of debt The growing availability of credit in this century however has brought those days to an end undermining traditional moral virtues such as prudence diligence and the delay of gratification while encouraging reckless

consumerism Or so we commonly believe In this engaging and thought provoking book Lendol Calder shows that this conception of the past is in fact a myth Calder presents the first book length social and cultural history of the rise of consumer credit in America He focuses on the years between 1890 and 1940 when the legal institutional and moral bases of today s consumer credit were established and in an epilogue takes the story up to the present He draws on a wide variety of sources including personal diaries and letters government and business records newspapers advertisements movies and the words of such figures as Benjamin Franklin Mark Twain and P T Barnum to show that debt has always been with us He vigorously challenges the idea that consumer credit has eroded traditional values Instead he argues monthly payments have imposed strict externally reinforced disciplines on consumers making the culture of consumption less a playground for hedonists than an extension of what Max Weber called the iron cage of disciplined rationality and hard work Throughout Calder keeps in clear view the human face of credit relations He re creates the Dickensian world of nineteenth century pawnbrokers takes us into the dingy backstairs offices of loan sharks into small town shops and New York department stores and explains who resorted to which types of credit and why He also traces the evolving moral status of consumer credit showing how it changed from a widespread but morally dubious practice into an almost universal and generally accepted practice by World War II Combining clear rigorous arguments with a colorful narrative style *Financing the American Dream* will attract a wide range of academic and general readers and change how we understand one of the most important and overlooked aspects of American social and economic life
