Becoming a Teacher Educator Anja Swennen, Marcel van der Klink, 2008-11-06 Becoming a Teacher Educator is an impressive book for teacher educators who want to be informed about the latest views and practices of their profession It is the first book that addresses a range of topics related to the work of teacher educators the induction of teacher educators and their further professional development Becoming a Teacher Educator has a practical focus and it provides theoretical insights experiences of experts and practical recommendations The book is rooted in the Association of Teacher Education in Europe ATEE and many of the chapters are written by authors who are active members of the ATEE Researchers and practitioners from different parts of Europe and beyond joined their efforts to write a book that is truly international and combines research practice and reflection Becoming a Teacher Educator is essential reading for novice teacher educators as well as for experienced teacher educators who want to keep up with the latest insights in their profession This book provides a guide for those who supervise novice and experienced teacher educators and for various professionals who are responsible for the professional development of teacher educators There is a growing need for evidence based resources made available to future teacher educators Since a learning society requires new sets of competencies of the main actors we are most in

want of knowledgeable teacher educators that support the professional development of their student teachers This book fits the actual demands Dr Joost Lowyck Professor Emeritus former director of the Teacher Education Institute Leuven University This is an original book in a very important area The editors define the concept of teacher educator widely and I think therefore that the book is relevant for schools higher education and education authorities of all kinds The authorship and theme have wide relevance across Europe Australasia and North America Prof Bob Moon Professor in Education Teaching Studies Department of Education Open University UK The book highlights that while the current global focus is very much on the need to educate sufficient and highly qualified teachers little political focus is given to those who teach the teachers What makes this book distinctive for all engaged in teacher education whether experienced or novice is that it allows the spotlight on those who teach the teachers and the opportunity for teacher educators to discuss debate and seriously examine themselves as a profession Simone White Deakin University Australia

Exploring America in the 1990s Molly Sandling, Kimberley Chandler, 2021-09-03 Exploring America in the 1990s New Horizons is an interdisciplinary humanities unit that looks at literature art and music of the 1990s to provide an understanding of how those living through the decade experienced and felt about the world around them Through the lens of identity it explores life in America and the myriad groups that coexisted in harmony and often with friction Cultural movements like grunge and Generation X will be examined alongside larger issues such as rising racial tensions following the O J Simpson trial and Rodney King riots the conflict between progress and morality as scientific advances in cloning and the Internet changed the U S and the growing debate over previously marginalized identities and gay rights following Don t Ask Don t Tell and DOMA The unit uses field tested instructional strategies for language arts and social studies from The College of William and Mary as well as new strategies and it includes graphic organizers and other tools for analyzing primary sources Grades 6-8

The New Politics of the Textbook Heather Hickman, Brad J. Porfilio, 2012-10-29 In an era when corporate and political leaders are using their power to control every aspect of the schooling process in North America there has been surprisingly little research on the impact of textbook content on students The contributors of this volume and its partner The New Politics of the Textbook Problematizing the Portrayal of Marginalized Groups in Textbooks guide educators school administrators academics and other concerned citizens to unpack the political social and cultural influences inherent in the textbooks of core content areas such as math science English and social science They urge readers to reconsider the role textbooks play in the creation of students political social and moral development and in perpetuating asymmetrical social and economic relationships where social actors are bestowed unearned privileges and entitlements based upon their race gender sexuality class religion and linguistic background Finally they suggest ways to resist the hegemony of those texts through critical analyses critical questioning and critical pedagogies
