Each chapter includes a highlighted section that draws students' attention to topics related to diversity and strategies for working with clients from a variety of populations. Issues related to race, ethnicity, immigration, and country of origin are highlighted along with age, gender, sexual orientation, religion, language, and physical and cognitive abilities. The use of case examples from multiple theoretical orientations offers a realistic view of what actually occurs in a consulting room. The book also addresses working with clients who have serious emotional or psychological difficulties and covers evidenced-based practice, assessment and diagnosis, and when and how to terminate treatment. An instructor's guide and PowerPoint slides are also included.

Key Features: Provides a balanced, integrated theoretical and practical approach to interviewing and counseling with a focus on skills development.
