MARK SCHEME for the October/November 2014 series

1123 ENGLISH LANGUAGE

1123/22

Paper 2 (Reading), maximum raw mark 50

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE®, Cambridge International A and AS Level components and some Cambridge O Level components.

Gold, Finance and Imperialism in South Africa, 1887-1902 Mariusz Lukasiewicz, 2024-03-19 This book provides a unique account of the financial and political history of the South African War by analysing the organisation and operations of the Johannesburg Stock Exchange JSE the oldest existing stock exchange in the African continent Identifying the JSE as the nexus between international finance South African gold mining and British imperialism the book exposes the financial and political connections between Johannesburg Pretoria London and Paris during the final stage of the imperial scramble for southern Africa Gold mining presented the South African Republic ZAR and the whole southern African regional economy with a long term economic future and new prospects of industrialisation However this socio-economic transformation was dependent on extensive capital investments and the institutionalisation of a coercive labour regime based on racial discrimination This monograph provides the first empirical examination of how international finance imperial politics and racialised industrial relations became entrenched in a key
