**Future Crimes** Marc Goodman, 2015-02-24 NEW YORK TIMES and WALL STREET JOURNAL BESTSELLER ONE OF THE WASHINGTON POST S 10 BEST BOOKS OF 2015 One of the world s leading authorities on global security Marc Goodman takes readers deep into the digital underground to expose the alarming ways criminals corporations and even countries are using new and emerging technologies against you and how this makes everyone more vulnerable than ever imagined Technological advances have benefited our world in immeasurable ways but there is an ominous flip side our technology can be turned against us Hackers can activate baby monitors to spy on families thieves are analyzing social media posts to plot home invasions and stalkers are exploiting the GPS on smart phones to track their victims every move We all know today s criminals can steal identities drain online bank accounts and wipe out computer servers but that s just the beginning To date no computer has been created that could not be hacked a sobering fact given our radical dependence on these machines for everything from our nation s power grid to air traffic control to financial services Yet as ubiquitous as technology seems today just over the horizon is a tidal wave of scientific progress that will leave our heads spinning If today s Internet is the size of a golf ball tomorrow s will be the size of the sun Welcome to the Internet of Things a living breathing global information grid where every physical object will be online But with greater connections come greater risks Implantable medical devices such as pacemakers can be hacked to deliver a lethal jolt of electricity and a car s brakes can be disabled at high speed from miles away Meanwhile 3 D printers can produce AK 47s bioterrorists can download the recipe for Spanish flu and cartels are using fleets of drones to ferry drugs across borders With explosive insights based upon a career in law enforcement and counterterrorism Marc Goodman takes readers on a vivid journey through the darkest recesses of the Internet Reading like science fiction but based in science fact **Future Crimes** explores how bad actors are primed to hijack the technologies of tomorrow including robotics synthetic biology nanotechnology virtual reality and artificial intelligence These fields hold the power to create a world of unprecedented abundance and prosperity But the technological bedrock upon which we are building our common future is deeply unstable and like a house of cards can come crashing down at any moment **Future Crimes** provides a mind blowing glimpse into the dark side of technological innovation and the unintended consequences of our connected world Goodman offers a way out with clear steps we must take to survive the progress unfolding before us Provocative thrilling and ultimately empowering **Future Crimes** will serve as an urgent call to action that shows how we can take back control over our own devices and harness technology s tremendous power for the betterment of humanity before it s too late      *Statement of Disbursements of the House* United States. Congress. House, 2002-04 Covers receipts and expenditures of appropriations and other funds      **Suicide Pact** John Monarch, 2018-09-03 Coyote Black not his real name wants to die And why not His life has been a failure on every level He s hitting middle age lives with his Alzheimer s addled mother has achieved exactly nothing in his chosen career and can count on one finger the number of

romantic relationships he s had In an act of uncharacteristic sociability he decides to commit group suicide with four equally pseudonymous people he met online Twisted Rainbow an insecure teenage girl with an emotionally abusive stepfather The Eliminator an ex soldier whose short brutal stint in Iraq left him a psychological wreck Niobe a young African American woman who in rapid succession lost her job her mother her boyfriend and her baby daughter and Mr Y a college aged Japanese American pop culture geek whose wealthy Type A parents can provide him with anything he wants except a sense of love and belonging But when this quintet meets up to do the deed Coyote Black suddenly has a better idea Since the doomed have nothing left to fear or lose why not postpone their suicide one month and in that time do whatever the hell they want such as deliver a righteous smackdown to Twisted Rainbow s asshole stepdad or blow up an abandoned chemical plant because despite his traumatic experiences in Iraq The Eliminator harbors an unhealthy obsession with blowing stuff up As a bonus this extra month will give Coyote Black plenty of time to unexist himself properly that is to say his various goodbyes sell off his possessions and destroy evidence of his hateful pointless life Alas he is as said a failure at everything so is it any wonder that nothing quite goes as planned 89 000 words
