Visions and Revisions of Europe Karolina Czerska-Shaw, Marcin Galent, Bożena Gierat-Bieroń, 2018 Visions and Revisions of Europe offers a multidisciplinary debate on the various political social and cultural issues that are at the heart of contemporary European discourse with a focus on the relations between the so called New and Old Europe A range of possible scenarios for the future of the EU as well as a discussion of the factors affecting current crises are at the forefront of the debate which lead the reader to reflect upon often overlooked aspects of European integration such as Germany's hegemonic role in the Union or historical narratives and myths that need to be deconstructed and critically analysed Contemporary populist movements also play a key role as do the often difficult processes of migration and EU mobility which reveal the tensions fears and lines of exclusion in contemporary European societies Finally the role of values namely an adherence to human rights and responsibility over the global social order which in the 1970s was a cornerstone of EU discursive action and identity building serves as a lasting point of reflection on the uncertain future of the EU's axio normative direction s

Literary History: Towards a Global Perspective Anders Pettersson, Gunilla Lindberg-Wada, Margareta Petersson, Stefan Helgesson, 2011-12-22 Literary History Towards a Global Perspective is a research project funded by the Swedish Research Council Vetenskapsr det Initiated in 1996 and launched in 1999 it aims at finding suitable methods and approaches for studying and analysing literature globally emphasizing the comparative and intercultural aspect Even though we nowadays have fast and easy access to any kind of information on literature and literary history we encounter more than ever the difficulty of finding a credible overall perspective on world literary history Until today literary cultures and traditions have usually been studied separately each field using its own principles and methods Even the conceptual basis itself varies from section to section and the genre concepts employed are not mutually compatible As a consequence it is very difficult if not impossible for the interested layperson as well as for the professional student to gain a clear and fair perspective both on the literary traditions of other peoples and on one's own traditions The project can be considered as a contribution to gradually removing this problem and helping to gain a better understanding of literature and literary history by means of a concerted empirical research and deeper conceptual reflection The contributions to the four volumes are written in English by specialists from a large number of disciplines primarily from the fields of comparative literature Oriental studies and African studies in Sweden All of the literary texts discussed in the articles are in the original language Each one of the four volumes is devoted to a special research topic

Foreign Policy in Comparative Perspective Ryan K. Beasley, Juliet Kaarbo, Jeffrey S. Lantis, Michael T.

Ugo Ascoli,Emmanuele Pavolini,2015-05-07 In the Trente Glorieuses era of economic prosperity that followed World War II Italy grew into one of Europe s and indeed the world s largest economies While the more tumultuous decades since have resulted in the rise of the Italian welfare state Italy remains a globally important economic player and important social policy indicator but as of yet it has received little academic research attention This is the first English language book to explore the evolution of the Italian welfare state with a particular emphasis on how it has changed since the 2008 economic crisis Drawing on a variety of social policies including pension schooling higher education healthcare and taxation policies this collection both offers a broad overview of the Italian situation featuring detailed analysis of the connections between particular policies and their outcomes and a comparative approach that frames the Italian case within a larger European context **From Soviet Republics to EU Member States**

Giovanni Maria Ruggiero,2011 Globalization accompanied by more options for communication has led to sweeping changes which mean that the economic political and cultural realities of one country may influence those of other countries despite them being

geographically far apart Increased migration both within and across national borders serves only to amplify the potential problems that this can cause Trauma and violence are often associated with the migration process and even where they are not migration and immigration represent a massive challenge to individuals which frequently involves loss of identity alienation and discrimination This book is a collection of 16 papers from the NATO sponsored meeting entitled Perspectives on Immigration and Terrorism which took place in Milan Italy in March 2010 and which focused on the psychological and socio cultural precursors to the radicalization of immigrant youth in Europe Some of the topics explored include factors of cultural and ideological opposition to western societies the growing pressure of the process of secularization illegal aspects of terrorism immigration as a possible trajectory for political radicalism the interaction between traumatic experience and immigration acculturation and adjustment to a new culture potential predictors of terrorist behavior and the role of a sense of national belonging The book provides many perspectives on the way in which vulnerability to radical ideology may develop among individuals whose lack of personal and social resources may result in alienation frustration and desperation It also offers solutions which might be implemented to mitigate or prevent this problem

The EU and Effective Multilateralism Edith Drieskens, Louise G. van Schaik, 2014-04-24 This book investigates the extent to which the EU has defined and operationalised the notion of effective multilateralism Reform has dominated the agenda of the EU in recent years with the adoption and implementation of the Lisbon Treaty However various international organisations have also been in reform mode in an attempt to adjust their structure to the changing polarity and counter criticisms about a lack of legitimacy accountability and effectiveness The EU and Effective Multilateralism examines the EU's intention to make multilateral settings more effective as formulated by the European Security Strategy in December 2003 Firmly grounded in new empirical research it provides a balanced account of the fit between internal reform the institutional reform within the EU notably following the entry into force of the Lisbon Treaty and external reform the institutional reform of the international reform in which the EU operates This book will be of much interest to students of EU politics European security international organisations foreign policy and IR in general

Global Business Strategies Dr. M. Ganesh Babu, Dr. Uma Gulati, Dr. G. Vani, Dr. B. Nagarjuna, 2013

Conflict and Change in EU Budgetary Politics Johannes Lindner, 2006-02-27 Why did the European Union experience a stark variation in the levels of conflict between the late 1970s when budgetary disputes dominated European politics and the 1990s when political actors were able to settle upon budgetary agreements without major conflicts This book responds to this key question with a two step argument Its first part shows that decision making rules can be regarded as a key determinant of the level of conflict in EU budgetary politics It details far reaching reform in 1988 reduced conflict because it introduced an institutional setting for multiannual budget planning that corrected the deficiencies of the original budget treaty Having identified institutional change as the trigger for the reduction of conflict the second part of this study focuses on the 1988 reform It shows how a number of reproduction

mechanisms prevented major institutional change in the 1970s and early 1980s. When these reproduction mechanisms lost force, a reform became possible and a new institutional setting emerged in 1988. These findings deliver a sharp insight into the interplay between rules and conflict in the still evolving political system of the EU. Moreover, by identifying precise conditions for the occurrence of institutional change and by linking political performance of institutions to their stability, this is a significant contribution to institutionalist research in social science. This book is an excellent resource for students and scholars of the European Union, Political Science, International Relations, Public Policy, and Public Finance.

Redefining EU Membership, 2024-09-27. *Redefining EU Membership* examines the issue of Membership within the European Union. EU today, by focusing on differentiation in and outside the EU. The Treaty on European Union unequivocally declares that the contracting parties are the Member States of the EU. However, a closer examination casts some doubt on the unitary status of Member States or at least suggests that the concept requires nuancing. Whilst diversity and to some extent differentiation have been part and parcel of the European integration process since its inception, *Redefining EU Membership* proposes that considering several developments, a new reflection on membership within the EU and on differentiation in and outside the EU is required. The volume's contributions are organized around four aspects of the tensions faced by the concept of a unitary and formal EU membership: first, an examination of key policy areas which have already witnessed various forms of differentiated integration; second, an analysis of special statuses within the EU; third, important examples of non-Member States in which EU law is applied with and without their participation in the EU's decision-making process; and fourth, the situation of states under accession or secession procedures which obliges them to accept EU norms and policies even prior to formal membership. These analyses are complemented by a reflection on the concept of membership in itself. In a context in which EU enlargement appears likely, the provided analysis reflects on the need to expand and introduce several kinds of membership to the EU in the future.
