

## Persuasive Essay on High Schools

Imagine that you are a high school student. Everyday, you eat lunch with your friends at the fast food place near your school. You order your usual double cheeseburger with French fries and go to sit down with your friends. They're standing by the wall, waiting for another group to get up so you can sit at your usual table by the vending machine. Ten minutes go by before the group finally leaves. When you sit down and look at your cell phone, you realize that you have only three minutes to get to class! You scarf down your double cheeseburger and manage to squeeze in a few French fries before you hastily start for the door.

You try to put on your fleece, it's a rather blustery day, but it won't zipper up all the way and fits you much more snugly than it used to. Now you have a mere two minutes to cross the street and race up the stairs through the throng of students. When you finally get to class, the late bell has already rung and you're out of breath. Your teacher decides that taking 5 off your essay due today is reasonable punishment, not that he believes you will ever get an A anyways. I am writing this essay to express my opinion on closing down the fast food restaurant that recently opened across from my school. My opinion is it should be shut down. I believe the way I do because students return late from lunch, fast food is extremely unhealthy, and not all students can fit in at once.

Dynamic Assessment is an innovative approach to revealing the full range of learner abilities that has rapidly gained attention from language educators and researchers While much of the research to date has examined Dynamic Assessment in Western countries the research in this book further extends the framework by documenting its uses by Chinese scholars in meeting context specific challenges Dynamic Assessment or DA originated in the writings of Russian psychologist L S Vygotsky concerning the concept of the Zone of Proximal Development While many assessment approaches call for closer integration with teaching DA embeds an instructional component referred to as mediation as part of the assessment procedure Following Vygotsky the picture of a person's abilities is incomplete if focus is restricted to past development as diagnosed by what the person can achieve independently and without considering those abilities that are emerging as revealed through responsiveness to mediation In this way DA offers insights into learner abilities not easily obtained through other assessments Widely employed in special education and general abilities testing the second language field has witnessed a rapid growth of interest in using DA to better understand the full range of learner language abilities and to determine how instruction can optimally promote the development of all learners This book brings together a collection of original studies conducted by scholars in China that build upon methods and principles from previous DA research and that leverage them to meet local demands In so doing this research collectively illustrates the extension of DA into new cultural contexts while simultaneously yielding findings that are sure to resonate with language educators assessors and researchers around the world This book was originally published as a special issue of *Language Assessment Quarterly* **School Life** ,1932 **The Indicator** ,1898 **Family Herald** ,1860 *The Family Herald* ,1859 **Co-operative Bulletin** Pratt
