

Abortion Persuasive Essay

Abortion has been one of the biggest controversies of all time. Many people believe it is 100% wrong and even consider it to be murder. The definition of abortion is; "The termination of pregnancy by the removal or expulsion from the uterus of a fetus or embryo prior to being capable of normal growth." These pro-life believers do not support the idea of abortion and believe it should be illegal. Many of these supporters do not know that if abortion were illegal they would still be performed, unfortunately by an uneducated staff. Over 70 thousand maternal deaths occur every year because of unsafe abortions. These women die, so the idea of supporting pro-life is contradictory, this is why the nation should be pro-choice.

Pro-choice believers support the right to privacy and the idea women should have the choice to do what they please with their own body and unborn child. As an example, a woman is raped by a man and becomes pregnant with his child. She decides she doesn't want to keep the baby and she has an abortion because the idea of raising a child of her rapist is too painful for her to deal with. Pro-choice defenders take sympathies to this woman while she then gets called a murderer by pro-life supporters. Abortions sometimes results in the woman being harassed because of the choice she has made about her own body. Sometime situations like this turns into harassment which can be considered to be part of anti-abortion violence. These "pro-life supporters" stalk, threaten, and even sometimes kill women who have chosen to have an abortion and even the doctors that provide the procedures. Pro-life also supports the idea that every child has a right to live, even if the mother is not financially able to support the child and the child would struggle everyday along with their mother. These children would be underprivileged and could potentially die from the circumstances they've be forced to live in. Again this is what people that are considered to be "pro-life" defend.

Persuasive Speech On Abortion Pro Choice

Pro-choice supports the girl that is fifteen years old loses her virginity and becomes pregnant because she wasn't fully aware of the consequences of her actions. The choice of her keeping the child would result in her getting kicked out of her home, she'd be finically unable to support the baby, and she would lose her education. With abortion she would not have to deal with these issues, though she would have to deal with the emotional aspect of deciding to terminate the pregnancy. Pro-choice supports the idea she would learn from her mistake and that ultimately it was her choice to do what she wished with her body. Even though these "Pro Life supporters" think giving up your child for adoption is a better choice than an abortion, but those children would be forced to live in an unfit foster home till they age out of the system.

Elections come and go and outcomes depend on events and characters out of the control of any single movement The United States downward trend in abortions however has happened steadily through both Democrat and Republican administrations There are several reasons to believe this is likely to continue The fragility of abortion practice in the United States is becoming increasingly clear People in other countries may also find useful information in the principles explained here The real life experience of doctors and nurses involved in providing abortion show that they are a weakening link in the abortion chain and this book explains reasons why this is so that depend more on psychology than politics There is also a vital opportunity in understanding the human mind s drive for consistency and its link to behavior When knowing about how abortion practice has begun collapsing people find it safer to hear the case against it and to act in a more constructive way toward the genuine needs of pregnant women The social and psychological dynamics of performing and defending abortions offer many opportunities for stopping widespread feticide The more we understand these the more effective we can be as peacemakers in the abortion war

Plato, Derrida, and Writing Jasper Neel,2016-05-14 Winner Mina P Shaughnessy Prize Achieving the remarkable feat of linking composition theory deconstruction and classical rhetoric this book has been admirably summarized by the theorist G Douglas Atkins who writes This lively and engaging informed and informative book constitutes an important contribution Though its field is most obviously composition composition theory and pedagogy part of its importance derives from the way it transcends disciplinary boundaries to bear on writing in general I know of no book that so fully and well discusses and evaluates the implications of deconstruction for composition and pedagogy That it goes beyond deconstruction rather than merely applying it increases its importance and signals a clear contribution to the understanding of writing Jasper Neel analyzes the emerging field of composition studies within the epistemological and

ontological debate over writing precipitated by Plato who would have us abandon writing entirely and continued by Derrida who argues that all human beings are written This book offers a three part exploration of that debate In the first part a deconstructive reading of Plato's Phaedrus Neel shows the elaborate sleight of hand that Plato must employ as he uses writing to engage in a semblance of spoken dialogue The second part describes Derrida's theory of writing and presents his famous argument that the history of truth of the truth of truth has always been the debasement of writing and its repression outside full speech A lexicon of nine Derridean terms the key to his theory of writing is also included At the end of this section Neel turns deconstruction against itself demonstrating that Derridean analysis collapses of its own weight The concluding section of the book juxtaposes the implications of Platonic and Derridean views of writing warning that Derrida's approach may lock writing inside philosophy The conclusion suggests that writing may be liberated from philosophical judgment by turning to Derrida's predecessors the sophists particularly Protagoras and Gorgias Drawing on Protagoras's idea of strong discourse Neel shows that sophistry is the foundation of democracy Strong discourse is public discourse which though based on probability and not truth remains persuasive over a long period of time to a great number of people This publicly tested discourse exists only among competitors never alone but its ability to remain persuasive even when surrounded by other discourses enables the ideas of democracy to emerge and then keeps democracy alive
