Petrucci, 1982 **Josquin's Rome** Jesse Rodin, 2012-11-07 In the late fifteenth century the newly built Sistine Chapel was home to a vigorous culture of musical composition and performance Josquin des Prez stood at its center singing and composing for the pope s private choir Josquin s Rome offers a new reading of the composer s work in light of the repertory he and his fellow papal singers performed from the chapel s singers box Comprising the single largest surviving corpus of late fifteenth century sacred music these pieces served as a backdrop for elaborately choreographed liturgical ceremonies a sonic analogue to the frescoes by Botticelli Perugino and their contemporaries that adorn the chapel s walls Jesse Rodin uses a comparative approach to uncover this aesthetically and intellectually rich musical tradition He confronts longstanding problems concerning the authenticity and chronology of Josquin s music while offering nuanced readings of scandalously understudied works by the composer s contemporaries The book further contextualizes Josquin by locating intersections between his music and the wider soundscape of the Cappella

Sistina Central to Rodin's argument is the idea that these pieces lived in performance. The author puts his interpretations into practice through a series of exquisite recordings by his ensemble Cut Circle available both on the companion website and as a CD from Musique en Wallonie. Josquin's Rome is an essential resource for musicologists, scholars of the Italian Renaissance and enthusiasts of early music. **Books in Print**, 1981. **Living Memory** Fabio Troncarelli, 2025-03-10. Fabio Troncarelli examines the Late Antique Cassiodorian edition of the Consolation of Philosophy by Boethius in this new study consisting of five chapters. The first one offers a brief sketch of the lives of the two protagonists of the story. The second concerns the medieval copies of the edition, some very close to the original archetype, preserving even its formal aspect and the indication of its first transcription in Ravenna in the sixth century. The third chapter establishes a comparison between some typical rhetorical, philosophical and editorial methods used by Cassiodorus and the ones found in Boethius's edition. The fourth chapter explores possible reasons for Cassiodorus's decision to produce such an edition during the years of the collapse of Ostrogothic rule in Italy. The final chapter discusses the living memory of Boethius's reputation at Vivarium and the relationships between his murder and Amalsuintha's murder as understood and covertly preserved by the Vivarian monks.

Hemodiafiltration Claudio Ronco, Bernard Canaud, Pedro Aljama, 2007. The application of hemodiafiltration has been restricted until recently when a broader clinical application has been made possible due to evidence from large studies and clinical investigations. This book provides an updated review of the evolution, advances and recent results achieved by hemodiafiltration in the clinical arena. The first part is devoted to historical notes and an outline of the evolution of different forms of hemodiafiltration made possible by technological developments in the fields of membranes, machines and fluids. The next section describes the theoretical rationale for hemodiafiltration, providing a detailed analysis of the involved mass separation processes, the hydraulic properties of the dialyzers, fluid mechanics and crossfiltration in hollow fiber hemodialyzers. An outline of different hemodiafiltration techniques, also reporting peculiar transport mechanisms and related technology, is given next, and a section on the clinical effects of hemodiafiltration concludes this book. Including different technologies, the publication offers a complete overview of the technical and clinical possibilities provided by hemodiafiltration in its widest concept, ranging from the molecular basis to the most practical application. It will be a valuable tool for the implementation of hemodiafiltration in daily practice, aimed at beginners and experts, scientists and physicians, students and senior faculty members alike. *Writers and Readers in Medieval Italy* Armando Petrucci, 1995-01-01.
