

ELECTRONIC IMMOBILISER

This locks the engine management system a few moments after the ignition has been switched off and therefore prevents starting of the vehicle by anyone who does not have the key.

Operation

Each key has an electronic chip, which has a special code.

When the ignition is switched on, the key code is recognised and starting is possible.

If the key does not have a code or has a different code from that stored in the system memory, the vehicle will not start.

Additional key

You can store up to 5 keys in the memory.

If you require an additional key or wish to change a faulty key, you must visit a PEUGEOT dealer with the confidential card and all the keys in your possession.

Key in ignition

If you leave the key in the ignition, this is indicated by a buzzer upon opening the driver's door.

Confidential card

This contains the identification code, which is required if any work is carried out on the system by a PEUGEOT dealer. This code is concealed by a film, which must not be removed unless required.

Keep your card in a safe place, never in your vehicle.

When buying a second-hand car:

- ensure that you are given the confidential card;
- it is advisable to have the key codes memorised by a PEUGEOT dealer to ensure that the keys in your possession are the only ones which can start the vehicle.

Do not make any modifications to the PEUGEOT electronic engine immobiliser system.
