Innovación docente en la universidad y realidades emergentes M. M. Fernández Martínez, A. Luque de la Rosa, J. J. Carrión Martínez, I. M. Román Sánchez, 2020-11-01 Es una realidad que la innovación docente emerge cada vez más como una supracategoría dentro del campo de la enseñanza universitaria. Son múltiples los vectores y elementos que configuran ese constructo que nos anuncia cambio y modificación o novedad. Se trata de un cambio intencional conducido en un escenario multiaxial en donde el docente universitario se mueve entre múltiples disciplinas científicas con locus más o menos debatidos dentro de la enseñanza universitaria. De otra parte nos encontramos con una importante renovación de los marcos conceptuales de carácter metodológico tanto en un sentido estricto como y técnicas específicas variadas acuden a insertarse en la tarea cotidiana del docente universitario como en un sentido más abierto enfoques de competencias, modelos dialécticos, diversidad, inclusión, género, etc. Así nos encontramos con cambios curriculares de gran calado como el Espacio Europeo de Educación Superior junto a diversas y abundantes irrupciones de metodologías específicas, unas importadas desde ámbitos de enseñanza diferentes a la universidad y otras generadas en el propio contexto universitario. En esta obra nos planteamos ofrecer al lector interesado por la acción docente en la universidad una serie de aportaciones que todas ellas mantienen un denominador común: la de presentar respuestas a realidades emergentes afrontadas desde una concepción innovadora de la acción docente. Se abordan nuevas realidades vinculadas al tradicional campo de las TIC, acercamientos al tema de las competencias de la diversidad e inclusión ciudadana, sin dejar de prestar atención a aspectos transversales como la colaboración docente, la formación permanente o el desarrollo de situaciones de estrés en el docente. Los autores constituyen un elenco de docentes universitarios disciplinariamente variado: trabajo social, educación económica, arquitectura, música, etc. por lo que su nexo de intereses en común es la innovación docente en un escenario universal como es la universidad pero desde experiencias singulares.

Gobierno y dirección universitaria en Colombia. Retos y realidades Varios Autores, 2023-05-10 Gobierno y dirección universitaria en Colombia es un libro resultado de un proceso de investigación y se compone de cinco capítulos. En los primeros tres se presentan los resultados de las etapas de la investigación relacionadas con el análisis de literatura y la construcción de distintos estados del arte, mientras que en los dos últimos capítulos basados en métodos cualitativos se presentan los resultados de las indagaciones realizadas. Los capítulos están estructurados de la siguiente manera: El primer capítulo presenta una revisión literaria en torno al concepto de gobierno corporativo. Autores como Mitchell Agle y Wood (1997) y Fama y Jensen (1983) definen el gobierno corporativo como la relación que se constituye entre la organización y sus accionistas o la supervisión de las áreas en las que los propietarios, ejecutivos y miembros del consejo de administración tienen injerencia para evitar conflictos de intereses.

The Impact of Higher Education Ranking Systems on Universities Kevin Downing,Petrus Johannes Loock,Sarah Gravett,2021-04-05 This book written by three generations of rankings academics with considerable experience from three very different regions of the globe lifts the lid on the real impact of higher education ranking systems HERS on universities and their stakeholders It critically analyses the criteria that make up the Big Three global ranking systems and using interviews with senior administrators academics and managers discusses their impact on universities from four very different continents Higher education continues to be dominated by a reputational hierarchy of institutions that sustains and is reinforced by HERS Despite all the opinions and arguments about the legitimacy of the rankings as a construct it seems experts agree that they are here to stay The question therefore seems to be less about whether or not universities should be

compared and ranked but the manner in which this is undertaken Delivering a fresh perspective on global rankings this book summarizes the development of HERS and provides a critical evaluation of the effects of HERS on four different major regions South Africa the Arab region South East Asia and Australia It will appeal to any academic student university administrator or governing body interested in or affected by global higher education ranking systems **Aprende Conmigo**

Lydia Maidl,1994 *A CHRISTIAN PERSPECTIVE ON ISLAM'S ORIGINS* Gabriel Aryeh,2024-01-24 A BRIEF SYNOPSIS OF A CHRISTIAN PERSPECTIVE ON ISLAM After several interactions with Muslims of distinct sects in the Bronx community NYC schools and the workplace through the decades Aryeh observed how some professing Christians were led to believe in the Islamic claim of Muhammad's legitimacy as a prophet Although a few maintained the belief that Jesus remained holy as a prophet they suggested he was a mere man and abandoned their past confessions regarding his divinity Nevertheless the more astounding claim many ex Christians and Muslims made suggested that the Jewish and Christian God found in the Bible identified as the same deity of the Qur'an Hence these claims above initiated the primary reasons for delving deep into the study of Islam and writing this book for the sake of not only reaching many believers who erred from Christianity but the Muslims who believed that Allah identified as the God of the Jews and Christians Indeed the enormous task of disproving Islam as an extension of the Abrahamic faith required many investigations into the questions raised by such astonishing claims This book makes deep inquiries into the historical and theological assertions found in the Islamic faith concerning Allah Muhammad and the religious practices observed today which have survived for little over fourteen centuries Consequentially the unfortunate misconceptions taught about Islam in many church pulpits since the early days of this researcher's youth stemmed from books found in academia and some Christian libraries which promoted a worldwide narrative by selective favorable historical accounts based on political ideologies instead of rigorous theological investigation The Christian perspective on Islam examines the theological origins of the Islamic faith by first investigating the geographical locations alleged as the nascent religion's early beginnings by exploring the historical and societal development of the Arab peoples Second this book probes the legitimacy of Muhammad as a divinely ordered prophet by consulting the Judaic traditions derived from the Jewish Scriptures explaining the qualifications of authentic prophethood Finally the sequential order of inquiry laid out above will highlight the emergence of the theology and residual religious rituals observed today in the Islamic world and therefore conclusively demonstrate that Islam remains unaligned with its Jewish and Christian predecessors
