P38 Lightning Pilots Training Manual 1944:

The Jagged Edge of Duty Robert L. Richardson, 2017-04-15 The World War II fighter pilot story On the very first day of the invasion of Sicily three months into his combat career Allan Knepper flew his P 38 Lightning fighter in a squadron sent out to sweep the island and interdict German ground targets Retreating German infantry unexpectedly pounded the American flyers Knepper was one of two shot down he was never found Knepper s story is the story in microcosm of thousands of American fighter pilots in World War II Richardson recounts Knepper s experiences from training through combat and uses them to discuss the aircraft tactics and doctrine training base life and aerial combat of the war This is the intimate account of one pilot at war but also the anatomy of the fighter pilot experience in World War II **The National Union Catalog, Pre-1956 Imprints** ,1979 **Air War Bibliography, 1939-1945** Myron J. Smith (Jr.),1977 He Wore a Pair of Silver Wings Thomas K. Follis,2004 The P-38 Lightning and the Men Who Flew It Wolfgang W. E. Samuel,2025-04-15

The P 38 Lightning was one of the fastest operational fighters of World War II famous for its successes in North Africa and the Pacific In The P 38 Lightning and the Men Who Flew It Wolfgang W E Samuel shares the stories of the young men who climbed into the cockpits of the P 38 to fight for freedom and of those who created tested and deployed these fearsome machines The P 38 was the product of the Lockheed Corporation the first fighter they ever built principally conceptualized by Kelly Johnson whose design was to meet Air Corps specifications To do that he came up with a twin engine aircraft with a tricycle landing gear unlike any other military aircraft of the time But it was no easy plane to fly Many pilots died in training and routine flying before ever meeting an opponent in combat P 38 units were formed quickly once the United States entered World War II in December 1941 Training was rushed to get pilots and planes to Europe as quickly as possible to serve as bomber escorts Although the P 38 could fly at the high altitudes the bombers flew it was not the right aircraft for the mission Without an engine in front of the cockpit to keep the pilot warm the plane was frigid Pilots suffered and were sometimes so weakened by the brutal cold that they had to be lifted out of the cockpit upon landing and the bombers suffered severe losses In North Africa s warmer air however the P 38 came into its own With four 50 caliber machine guns and a 20mm cannon in its nose the P 38 was a formidable adversary With proven success in the Mediterranean P 38 squadrons were transferred to the Pacific Theater where they flourished Focusing on the men who flew this challenging aircraft and the men who designed and decided how to deploy it Samuel shares stories of bravery and ingenuity alongside an aviation history long neglected The P 38 s deployment is covered in some detail including the actions of Richard Bong who became the US forces ace of aces In the Pacific skies the P 38 its pilots and designers made the heroic history captured here
