Aspiration and Reality in Legal Education David Sandomierski, 2020-02-24 Contrary to conventional narratives about legal education *Aspiration and Reality in Legal Education* reveals a widespread desire among law teachers to integrate both theory and practice into the education of versatile and civic minded lawyers Despite this stated desire however this aspiration is largely unrealized due to a host of intellectual and institutional factors that produce a profound gap between what professors believe about law and the ideas they communicate through their teaching Drawing on interviews with over sixty law professors in Canada David Sandomierski makes two important empirical discoveries in this book First he establishes that contrary to a dominant narrative in legal education that conceives of theory and practice as oppositional the vast majority of law professors consider theory to be vitally important in preparing better lawyers Second he uncovers a significant gap between the realist theoretical commitments held by a majority of professors and the formalist theories they almost uniformly convey through their teaching and conceptions of legal reasoning Understanding the intellectual and institutional factors that account for these tensions Sandomierski argues is essential for any meaningful project of legal education reform

Economics of the Environment Robert N. Stavins, 2019 *Economics of the Environment* Seventh Edition is a compendium of the best most timely articles by a dream team of environmental economists together with an original introductory chapter by the editor Now in its seventh edition *Economics of the Environment* serves as a valuable supplement to environmental economics text books and as a stand alone reference book of key up to date readings from the field Edited by Robert N Stavins the book covers the core areas of environmental economics courses as taught around the world and the included authors are the top scholars in the field Overall more than half of the chapters are new to this edition while the rest have remained seminal works

A Commentary on Plutarch's De Latenter Vivendo Geert Roskam, 2007 In this book Plutarch's anti Epicurean polemic is understood against the background of the previous philosophical tradition

Sex, Freedom, and Power in Imperial Germany, 1880-1914 Edward Ross Dickinson, 2014-02-17 This is a study of the intense complex and escalating debate over sexuality and sexual morality that roiled politics in Germany between 1880 and 1914 That debate was grounded in the rapid evolution and growing complexity of German society the multiplication of cultural groupings professional associations and social movements the emergence of new social groups social milieus and professions the rapid development of the media and commercial entertainments and so on All parties involved understood it to be a debate over the most fundamental question of modern political life how to secure

both national power and individual freedom in the context of rapid social and cultural change *England and the Papacy in the Early Middle Ages* Benjamin Savill, 2023-07-26 *England and the Papacy in the Early Middle Ages* Papal Privileges in European Perspective c 680 1073 provides the first dedicated book length study of interactions between England and the papacy throughout the early middle ages It takes as its lens the extant English record of papal privileges legal diplomas drawn up on metres long scrolls of Egyptian papyrus acquired by pilgrim petitioners within the city of Rome and then brought back to Britain to negotiate local claims and conflicts How why and when did English petitioners choose to invoke the distant authority of Rome in this way and how did this compare to what was taking place elsewhere in Europe How successful were these efforts and how were they remembered in later centuries By using these still understudied papal documents to reassess what we know of the worlds of Bede the Mercian Supremacy the West Saxon Kingdom of the English and the Norman Conquest locating them in the process within a comparative Europe wide setting this book offers important new contributions to Anglo Saxon studies legal and documentary history papal history and the study of early medieval Europe more widely It also includes an annotated handlist of the corpus of English papal privileges up to 1073 a critical reference work for future research in the field **Sacred Place and Sacred Time in the Medieval Islamic Middle East** Daniella

Talmon-Heller, 2020-03-18 This book offers a fresh perspective on religious culture in the medieval Middle East It investigates the ways Muslims thought about and practiced at sacred spaces and in sacred times through two detailed case studies the shrines in honour of the head of al Husayn the martyred grandson of the Prophet and the holy month of Rajab The changing expressions of the veneration of the shrine and month are followed from the formative period of Islam until the late Mamluk period paying attention to historical contexts and power relations Readers will find interest in the attempt to integrate the two perspectives synchronically and diachronically in a discussion of the relationship between the sanctification of space and time in individual and communal piety and in the religious literature of the period Software Engineering -

ESEC/FSE '99 Oskar Nierstrasz, Michel Lemoine, 2003-05-21 For the second time the European Software Engineering Conference is being held jointly with the ACM SIGSOFT Symposium on the Foundations of Software Engineering FSE Although the two conferences have different origins and traditions there is a significant overlap in intent and subject matter Holding the conferences jointly when they are held in Europe helps to make these thematic links more explicit and encourages researchers and practitioners to attend and submit papers to both events The ESEC proceedings have traditionally been published by Springer Verlag as they are again this year but by special arrangement the proceedings will be distributed to members of ACM SIGSOFT as is usually the case for FSE ESEC FSE is being held as a single event rather than as a pair of colocated events Submitted papers were therefore evaluated by a single program committee ESEC FSE represents a broad range of software engineering topics in mainly two continents and consequently the program committee members were selected to represent a spectrum of both traditional and emerging software engineering topics A total of 141 papers were

submitted from around the globe Of these nearly half were classified as research papers and the rest as both research and experience papers Twenty nine papers from five continents were selected for presentation and inclusion in the proceedings Due to the large number of industrial experience reports submitted we have also introduced this year two sessions on short case study presentations *Local Government in Australia* Bligh Grant, Joseph Drew, 2017-03-06 This book offers a general introduction to and analysis of the history theory and public policy of Australian local government systems Conceived in an international comparative context and primarily from within the discipline of political studies it also incorporates elements of economics and public administration Existing research tends to conceptualise Australian local government as an element of public policy grounded in an administrative science approach A feature of this approach is that generally normative considerations form only a latent element of the discussions which is invariably anchored in debates about institutional design rather than the normative defensibility of local government The book addresses this point by providing an account of the terrain of theoretical debate alongside salient themes in public policy **The Nation**, 1892

Select Proceedings of the European Society of International Law, Volume 4, 2012 Mariano J Aznar, Mary E

Footer, 2016-01-28 This is the fourth in the Series of Select Proceedings of the European Society of International Law ESIL featuring the most important and interesting papers presented at the Fifth Biennial Conference on Regionalism and International Law organised by ESIL and the University of Valencia in 2012 As usual the best papers from that conference have been re written edited and drawn together by the two editors to present a perspective on what is a flourishing forum for the discussion of new ideas and scholarship on international law British Interventions in Early Modern Ireland Ciaran Brady, Jane Ohlmeyer, 2005-01-06 This book offers a perspective on Irish History from the late sixteenth to the end of the seventeenth century Many of the chapters address from national regional and individual perspectives the key events institutions and processes that transformed the history of early modern Ireland Others probe the nature of Anglo Irish relations Ireland's ambiguous constitutional position during these years and the problems inherent in running a multiple monarchy Where appropriate the volume adopts a wider comparative approach and casts fresh light on a range of historiographical debates including the New British Histories the nature of the General Crisis and the question of Irish exceptionalism Collectively these essays challenge and complicate traditional paradigms of conquest and colonization By examining the inconclusive and contradictory manner in which English and Scottish colonists established themselves in the island it casts further light on all of its inhabitants during the early modern period **Women Writing the English**

Republic, 1625-1681 Katharine Gillespie, 2017-04-07 Scholars have fiercely debated the causes of the English Civil Wars and the rise of anti monarchical and republican thought a century before the American Revolution This ambitious and highly original book is the first to argue that women played a significant role in formulating and enacting English republican precepts Even as feminists contend that republicanism's division of the private from the public sphere excluded women from

political power Gillespie demonstrates how seventeenth century Englishwomen articulated republicanism's key insight meaningful action political or otherwise does and should take place outside the purview of government in spheres that not only include women but that women helped construct Drawing on the works of six women writers of the period the book examines their writings and explores the key themes and concepts that they build upon **The Cambridge Handbook of Policing in the United States** Tamara Rice Lave, Eric J. Miller, 2019-07-04 A comprehensive collection on police and policing written by experts in political theory sociology criminology economics law public health and critical theory *If Sons, Then Heirs* Caroline Johnson Hodge, 2007-07-13 By extending Christ's redemption to those who were not ethnically Jewish Paul has long been credited with transforming Christianity into a universal ethnically neutral religion In this book Caroline Johnson Hodge challenges this interpretation through a detailed examination of kinship and ethnic language in Paul's letters Arguing against firmly entrenched claims that Paul's Epistles eliminate ethnicity from Christianity Johnson Hodge claims the exact opposite Paul treats ethnicity as a central element of the Gentile believer's entrance into communion with Jesus Paul creates a myth of origins for Gentiles through baptism Jews and Gentiles alike could share a common ancestor in Abraham In Johnson Hodge's reading Paul does not combine Jews and Gentiles under a new homogenous group of Christians but instead sees baptism as a way of creating two separate but related lineages of Abraham *The Alien in Israelite Law* Christiana van Houten, 1991-01-01 One of the first systematic and critical reconstructions of the history of the social class of aliens in ancient society this study develops new insights gained from the sociological approach to biblical literature As Israel developed from tribal society to state from state to confessional community and from confessional community to province the identity and legal status of the alien developed in a concomitant way Laws which initially afforded the alien only partial social and cultic inclusion in the pre-exilic period eventually required complete equality between the alien and Israelite in the postexilic period Our Social World Jeanne H. Ballantine, Keith A. Roberts, 2008-11-17 The most innovative introduction to Sociology in a generation presents a coherent essay that inspires students to develop their sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day to day basis This engaging text introduces the discipline of sociology to the contemporary student and provides an integrated comprehensible framework from which to view the world In each chapter authors Jeanne H Ballantine and Keith A Roberts provide an organizing theme that is not exclusively tied to one theoretical paradigm to help students see relationships between topics Our Social World presents the perspective of students living in the larger global world The Continuum Encyclopedia of British Philosophy: K-Q A. C. Grayling, Andrew Pyle, Naomi Goulder, 2006
