

High School Sports

High school sports play a big role in school and have a great affect on a large percentage on students. Besides academics, sports make a school's history what it is. Also being involved in sports develops and improves a lot of skills that students wouldn't develop in the classroom. A lot of times in athletic competitions you're put in a position to where you have to challenge yourself and strategize on how to wear down or stop your opponent. Winning and losing competitions push you harder to achieve success and not give up. There's still another opportunity.

Academics....learning in the classroom, something just

about every athlete needs to be successful. Yes you learn lessons in the classroom like when you pass or fail a test because you didn't study or pay attention the previous class. This doesn't pressure or bother enough students to want to do better on the next one, that's why I believe athletics or sports have a better lessoned learned out of it.

Lessons learned in sports are more significant. In sports you actually pay attention to the meaning and apply it. My experience of playing sports and learning lessons from my mistakes help me a lot in the classroom because sports taught me to strive more in succeeding the highest potential I'm capable of doing. If high school sports weren't around, a lot of students wouldn't have a reason to want to succeed. Students want the opportunity to stay doing sports so they do well in the classroom.

Without the impact sports have on students and what it teaches them affects their decisions in the classroom along with academics. Why? Having good sportsmanship in basketball means you know how to control your actions and behavior, this plays a part in the classroom because a lot of times students

Williams, 2005-04-11 The LEA Guide to Composition is firmly based on research into how people learn to write and draws on the most significant strategies and techniques in composition studies But this text is not just about the act of writing It is about using writing as a vehicle for learning about the world about the academy about oneself The focus is on writing as a means of interpretation

The emphasis throughout is on encouraging reflection and developing critical thinking skills. Although the text suggests ways of teaching that reflect knowledge about how people most easily learn to become competent writers, it is specifically designed to allow for numerous approaches to teaching composition. Instructors will value this flexibility. This text is finely tuned to the needs and interests of today's composition students and teachers. Classroom tested at various universities over a four-year period to refine and improve its effectiveness, the Guide is distinguished by a range of carefully crafted instructional features.

Reading-Writing Connection An extensive selection of fresh, thought-provoking professional work allows students to internalize models and acquire appropriate genre familiarity. Student papers are included to illustrate how others have responded to real writing tasks similar to those the readers of this book will face.

Critical Reading and Thinking Numerous reading selections are thoroughly analyzed to provide models of close critical reading. Critical Reading Guides provided for some selections draw students in by asking rhetorical questions that develop critical thinking skills and better understanding of how the authors produced key effects.

Diverse Voices Specially designed writing activities encourage students who are non-native speakers of English or who come from non-mainstream cultural backgrounds to share their perspectives with the entire class.

Writing Activities More than 60 writing activities of various types are included, suitable for students with a range of writing experience. Many of these are short assignments that are linked to longer ones, which allows students to build their skills sequentially, adding new skills as old ones are practiced and mastered.

Writing Guides Based on years of teaching experience, these guides provide detailed information and concrete practical advice about how to succeed on selected assignments in each chapter.

Group Activities Selected writing assignments include collaborative workshop activities that prompt students to engage in a variety of group efforts that enhance the writing process. As a result, group work progresses with a clear purpose and well-defined goals, leading to more student involvement and ultimately better writing.

Application of Key Ideas Writing Assignments, Writing Guides, and Critical Reading Guides are complemented by activities that allow students to practice using important concepts discussed in the text, that progress with a clear purpose and well-defined goals before they begin an actual assignment.

Journal Entries Prompts throughout the text are included to increase the amount of writing students do to enhance reflection and critical thinking and to engage students in reflecting on and making connections between college and their lives outside of class.

Handbook The handbook provides basic information about the form and function of language. It focuses on the usage conventions that are a crucial part of academic writing. In addition, it covers differences and similarities in the specific conventions that govern writing in the humanities, social sciences, and science. The documentation formats for these three major divisions of the undergraduate curriculum are described in detail, with full-length student papers to illustrate the formats in context.

An Instructor's Manual is available with this text upon adoption.
