Title: Providing Hope, Achieving Justice, Changing Lives

I. Introduction

- A. Attention Getter:** It is projected that 1 in 4 women and 1 in 7 men will experience domestic violence in their lives ("What is the Definition of Domestic Violence," 2018).
- B. Background and Relevance to the Audience:** The United States Department of Justice defines domestic violence as a "pattern of abusive behavior in any relationship that is used by one partner to gain or maintain control over another intimate partner" ("What is the Definition of Domestic Violence," 2018). Domestic violence is an issue that occurs all across the world and that can affect people of any race, ethnicity, gender, sexuality, religious background, educational level, and even socioeconomic status (Brigham and Women's Hospital, 2014). Which is why this topic is so important. Just because you might not have experienced domestic violence, does not mean that you won't ever experience it. Any of us could be affected by this – even if not directly, you likely know someone who has been a victim of domestic violence.
- C. Speaker Credibility:** Last summer, I was an intern at an organization called My Sister's Place, which provides counseling, legal services, and other services to people who are victims of domestic violence and human trafficking. While I did not work directly with survivors, I participated in staff trainings about remaining trauma-informed, and I watched a lot of videos about domestic violence and about people who have survived domestic violence. This experience taught me how important it is for domestic violence to be seen as a public health issue.
- D. Thesis:** Domestic violence is more than just a personal problem that occurs behind closed doors, it should be seen as a public health issue that can affect any group of people at any time, and it is very important to know where and how victims can receive help.
- E. Preview of Main Points:** I will be talking about domestic violence as both something that occurs at an individual level and as something that should be seen as a public health issue that needs greater recognition within the wider society. I will also be discussing how an organization called My Sisters' Place supports people who have been victims of domestic violence, and what you can do to support the organization.

Transition to first main point: Now that we have discussed what domestic violence is and have introduced the main points of my presentation, I want to talk about why domestic violence is seen as a personal issue.

II. Body

- A. Main Point 1:** Establish the significance of the social problem

- 1. One part of the problem**

Massacres and Morality Alex J. Bellamy,2012-09-27 Most cultural and legal codes agree that the intentional killing of civilians whether in peacetime or war is prohibited This is the norm of civilian immunity widely considered to be a fundamental moral and legal principle Yet despite this fact the deliberate killing of large numbers of civilians remains a persistent feature of global political life What is more the perpetrators have often avoided criticism and punishment Examining dozens of episodes of mass killing perpetrated by states since the French Revolution late eighteenth century this book attempts to explain this paradox It studies the role that civilian immunity has played in shaping the behaviour of perpetrators and how international society has responded to mass killing The book argues that although the world has made impressive progress in legislating against the intentional killing of civilians and in constructing institutions to give meaning to that prohibition the norm s history in practice suggests that the ascendancy of civilian immunity is both more recent and more fragile than might otherwise be thought In practice decisions to violate a norm are shaped by factors relating to the norm and the situation at hand so too is the manner in which international society and individual states respond to norm violations Responses to norm violations are not simply matters of normative obligation or calculations of self interest but are instead guided by a combination of these logics as well as perceptions about the situation at hand existing relations with the actors involved and power relations between actors holding different accounts of the situation Thus whilst civilian immunity has for the time being prevailed over anti civilian ideologies which seek to justify mass killing it remains challenged by these ideologies and its implementation shaped by individual circumstances As a result whilst it has become much more difficult for states to get away with mass murder it is still not entirely impossible for them to do so
