Wasser, 2021-08-16 I just cannot write or I am not a good writer are familiar complaints from students in academia Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career In this book Nancy A Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin Those who cannot read will not be able to write Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self aware of their voices By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process Good writers are not born that way but made through effort and practice Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children voices **Drenched in Light** Lisa Wingate, 2021-04-06 A woman struggling to find her way forward discovers hope in her bond with a troubled young girl in this heartfelt novel in the
