Petit Livre De Les Recettes Solo:

Le Guide Musical ,1880 **Santé et société à Montpellier à la fin du Moyen Âge** Geneviève Dumas,2014-11-27 This book examines the social institutional and cultural setting of medical practices in the medieval town of Montpellier which boasted one of the first universities of the middle ages and a famous school of medicine Some of its most celebrated masters and their medical works have been thoroughly studied but few of them try to put these in context with a thriving urban community of merchants and craftsmen that were at the core of the city council Their concurrent efforts will endow Montpellier of a rich health care system featuring not only the university masters but also the city s barber surgeons and apothecaries Their collective fate is revealed here in an integrated picture of health and society in the middle ages
