La Révolution Française Ernest Daudet, Contesting Immigration Policy in Court Leila Kavar, 2015-06-25 What difference does law make in immigration policymaking Since the 1970s networks of progressive attorneys in both the US and France have attempted to use litigation to assert rights for non citizens Yet judicial engagement while numerically voluminous remains doctrinally curtailed This study offers new insights into the constitutive role of law in immigration policymaking by focusing on the legal frames narratives and performances forged through action in court Challenging the conventional wisdom that cause litigation has little long term impact on policymaking unless it produces broad rights protective principles this book shows that legal contestation can have important radiating effects on policy by reshaping how political actors approach immigration issues Based on extensive fieldwork in the United States and France this book explores the paths by which litigation has effected policy change in two paradigmatically different national contexts The Leibniz-Caroline-Clarke Correspondence, 2023-08-02 This volume focuses on the famous philosophical correspondence between the German polymath Gottfried Wilhelm Leibniz writing in the final months of his life and the English philosopher and cleric Samuel Clarke as well as the correspondence between Leibniz and Caroline of Brandenburg-Ansbach future Princess of Wales and Queen Consort of England who played a significant role in the correspondence as both mediator of and commentator on the exchanges between Leibniz and Clarke It provides a complete reproduction of Samuel Clarke's 1717 edition of his correspondence with Leibniz as well as original language texts in French and Latin and English translations of the extant correspondence between Leibniz and Caroline from 1714 to 1716 as well as many of the letters exchanged between Leibniz and various correspondents during the period of the correspondence with Clarke Many of the original language documents are here published and translated into English for the first time Gregory Brown's introduction places the letters in historical and personal context The first part discusses the correspondence and developing relationship between Caroline and Leibniz This encompasses a period immediately leading up to the ascension of Caroline's father in law Georg Ludwig Elector of Braunschweig-Lüneburg Hanover to the throne of England as George I following the death of Queen Anne as well as Caroline's ascension to the position of Princess of Wales and subsequent relocation to England Leibniz's correspondence

with Clarke mediated by Caroline and Leibniz's death in 1716 The second part of the introduction discusses the main themes of the correspondence between Leibniz and Clarke and highlights the importance and influence of Caroline in her role as mediator of the correspondence

Pour une histoire des Alpes, Moyen Age et Temps Modernes Jean-François Bergier, 2024-10-28 The Alps as Professor Bergier shows in this selection of his work should not be considered an impassable barrier nor an isolated region but rather as an integral part of the history of Europe The lowlanders typical view of the mountains as fearful heights to be crossed and the image of those who lived there as existing in a delicate balance with nature are part only of the story These articles are particularly concerned with transalpine traffic and the different routes it took in response to changing circumstances in the lands to south and north and with the exploitation and use of mountain resources A number aim also to identify the particularities of the mountain way of life and its social and political organisation
