Evaluation and Decision Models Denis Bouyssou,Thierry Marchant,Marc Pirlot,Patrice Perny,Alexis Tsoukias,P. Vincke,2012-12-06 1 1 Motivations Deciding is a very complex and difficult task Some people even argue that our ability to make decisions in complex situations is the main feature that distinguishes us from animals it is also common to say that laughing is the main difference Nevertheless when the task is too complex or the interests at stake are too important it quite often happens that we do not know or we are not sure what to decide and in many instances we resort to a decision support technique an informal one we toss a coin we ask an oracle we visit an astrologer we consult an expert we think or a formal one Although informal decision support techniques can be of interest in this book we will focus on formal ones Among the latter we find some well known decision support techniques cost benefit analysis multiple criteria decision analysis decision trees But there are many other ones sometimes not presented as decision support techniques that help making decisions Let us cite but a few examples When the director of a school must decide whether a given student will pass or fail he usually asks each teacher to assess the merits of the student by means of a grade The director then sums the grades and compares the result to a threshold When a bank must decide whether a given client will obtain a credit or not a technique called credit scoring is often used *Exploring Natural Language* Gerald Nelson,2002-01-01 ICE GB is a 1 million word corpus of contemporary British English It is fully parsed and contains over 83 000 syntactic trees Together with the dedicated retrieval software ICECUP ICE GB is an unprecedented resource for the

study of English syntax Exploring Natural Language is a comprehensive guide to both corpus and software It contains a full reference for ICE GB The chapters on ICECUP provide complete instructions on the use of the many features of the software including concordancing lexical and grammatical searches sociolinguistic queries random sampling and searching for syntactic structures using ICECUP's Fuzzy Tree Fragment models Special attention is given to the principles of experimental design in a parsed corpus Six case studies provide step by step illustrations of how the corpus and software can be used to explore real linguistic issues from simple lexical studies to more complex syntactic topics such as noun phrase structure verb transitivity and voice *Vehicle Feedback and Driver Situation Awareness* Guy H. Walker, Neville A. Stanton, Paul M.

Salmon, 2018-04-17 A potentially troubling aspect of modern vehicle design some would argue is a trend for isolating the driver and reducing vehicle feedback usually in the name of comfort and refinement but increasingly because of automation There is little doubt cars have become more civilised over the years yet despite this the consequences of driver behaviour remain to a large extent anecdotal Readers will have heard such anecdotes for themselves They usually take the form of drivers of a certain age recalling their first cars from the 1970s or 80s in which doing 70 mph really felt like it The question is whether such anecdotes actually reflect a bigger more significant issue that could be better understood Related questions have been explored in other domains such as aviation where the change to fly by wire did indeed bring about some occasionally serious performance issues that were not anticipated Despite some clear parallels automotive systems have been left relatively unstudied The research described in this book aims to explore precisely these issues from a Human Factors perspective This means connecting the topics of vehicle feel vehicle dynamics and automotive engineering with the latest research on driver situation awareness The problem is explored experimentally from a variety of theoretical viewpoints but the outcomes are consistently practical Here we have a promising new avenue along which the driver experience can be enhanced in novel and insightful ways Tools and templates are provided so that engineers and designers can try different ways to boost vehicle safety efficiency and enjoyment from a human centered perspective Association of American Publishers AAP Finalist for the 2019 PROSE Award Features Diagnosis of how vehicle feel impacts driver situation awareness and how this could aid future vehicle designs Multi theory approach to driver situation awareness and how different views of this important concept give rise to different insights Comprehensive analysis of situation awareness in driving the information requirements of drivers and how these needs can be supported Practical descriptions of how state of science Human Factors methods have been applied in practice **The River** Philippa Forrester, 2010-05-05 When TV presenter Philippa Forrester

first met Charlie a wildlife cameraman she thought he was a show off and he thought she was arrogant The second time despite being hungry thirsty and trapped in torrential rain aboard the world's most uncomfortable boat they fell in love This is the story of their move out of London deep into the heart of the English countryside When they impulsively buy an old mill worker's cottage they are entranced by its river teeming with kingfishers minnows and water fowl But they are overjoyed when

they spot an animal long thought to have abandoned the area an otter swimming happily past their house Inspired they decide to make a film about the otters on their doorstep at the same time as having a baby setting up house and pursuing their careers Unsurprisingly things turn out to be easier said than done Written with endless charm and real affection featuring a cast of memorable characters *The River* is packed with hilarious stories spanning floods chicken keeping and wildlife watching The result is sheer delight
