Farmers, Kings, and Traders Martin Hall, 1990-10-15 In this overview of the origins and development of black societies in southern Africa Martin Hall reconstructs the region's past by thoroughly examining both the archaeological and the historical records Beginning with the gradual southward movement of the earliest farmers nearly two thousand years ago Hall tracks the emergence of precolonial states such as Mapungubwe and Great Zimbabwe *Farmers Kings and Traders* concludes with the devastating effects of colonialism Through a close reading of the accounts of early travelers colonialists archaeologists and historians Hall places in context the often contradictory histories that have been written of this region The result is an illuminating look at how ideas about the past have themselves changed over time

The Political Legacy of Colonialism in Zimbabwe Everisto Benyera, 2024-11-18 This book investigates the political legacy of colonialism in contemporary African institutions Using the case study of electoral and justice institutions in post colonial Zimbabwe the book explores how those in post colonial states relate to and with institutions initially designed to oppress them and remain structurally and systematically colonial The book argues that the colonial era colonised the land knowledge and minds of Africans resulting in injustice and epistemicides The book demonstrates how the critical institutions of elections and justice have been rendered anti black and toxic The book calls for

Africa to invest in epistemic independence unencumbered by Western political modernity and then deploy that independence to build reconstituted institutions structures and systems that serve the interests of Africans This book will be an important read for African policymakers and researchers working on African politics governance and international relations

Archives, Objects, Places and Landscapes Manyanga, Munyaradzi, Chirikure, Shadreck, 2017-04-11 Dissatisfaction has matured in Africa and elsewhere around the fact that often the dominant frameworks for interpreting the continent's past are not rooted on the continent's value system and philosophy This creates knowledge that does not make sense especially to local communities The big question therefore is can Africans develop theories that can contribute towards the interpretation of the African past using their own experiences Framed within a concept revision substrate the collection of papers in this thought provoking volume argues for concept revision as a step towards decolonizing knowledge in the post colony The various papers powerfully expose that cleansed knowledge is not only locally relevant it is also locally accessible and globally understandable

The Bible, the Bullet, and the Ballot Fabulous Moyo, 2017-03-31 The Bible the Bullet and the Ballot provides a balanced account of the role of Christians Christian organisations and churches in sociopolitical transformation over the bedrock of colonial and nationalist politics in the past century in Zimbabwe Fabulous Moyo explores the broader social and political impact of prominent African Christian clergy who were sociopolitical activists such as Ndabaningi Sithole Abel Muzorewa and Canaan Banana It also highlights the role of missionaries who contributed to the African struggle for independence such as Ralph Edward Dodge Donal Lamont and Garfield Todd He examines the contributions of African nationalist parties and prominent politicians with Christian roots such as Joshua Nkomo and Robert Mugabe in the struggle for independence and their contribution in the postcolonial era in light of their Christian heritage and the collective pre independence nationalist ideals on nation building and national unity *Legacies of Stone* William Joseph Dewey, 1997

informed by finds and observations from the entire site and wider landscape In so doing the book strongly contributes towards decolonising African and world archaeology Written in an accessible manner the book is aimed at undergraduate students graduate students and practicing archaeologists both in Africa and across the globe The book will also make contributions to the broader field such as African Studies African History and World Archaeology through its emphasis on developing synergies between local ways of knowing and the archaeology
