Economic Systems and Decision Making

The Venn diagram below represents three major economic systems. Each economic system has certain characteristics that are particular to it alone. However, two or all of these economic systems share some characteristics.

Directions: Write each word or phrase from the word bank in the correct part of the Venn diagram, depending on which economic system or systems that word describes or characterizes.

private ownership of business	inefficient	high incentives
state ownership of business	consumer-demand driven	government controlled
free enterprise	mixed economy	economic security
entrepreneurial	welfare state	social benefits
highly innovative	few incentives	fair wealth distribution
unfair wealth distribution	personal profits	unprofitable needs may not be addressed
high uncertainty

Reateaching Activity One Economics:

Economics Gary E. Clayton, 2008 Data Book of Social Studies Materials and Resources, 1989 *More Like Life Itself* Cory Wright-Maley, 2018-10-01 John Dewey wrote in multiple places that education should be an experience of the content and processes of life itself Too often social studies is taught in a way that tells students about real life but fails to engage them in the process of life for which Dewey advocated The core purpose of simulations is to reflect the processes events and phenomena expressed in a variety of real life domains They engage students in these reflections of real life meaningfully as active agents who have the power to make decisions that impact the direction of events and that lead to both intended and unintended consequences Because of the nature of simulations students who participate in them are able to build their capacities to think in complex and critical ways Today despite the growing evidence that simulations have an important role to play in the teaching of social studies they remain an underutilized and undervalued approach to the discipline One of the key obstacles to their widespread adoption is the limited availability of training resources available to social studies teachers Teachers need support to develop a new vision of social studies teaching and learning coupled with practical guidance necessary to implement simulations effectively This volume provides teachers with both When teachers are able to weave simulations effectively into the fabric of social studies teaching and learning they help to promote social studies experiences that are both powerful and purposeful They offer students an experience of the discipline that is indeed More Like Life Itself **Information Series** ERIC Clearinghouse on Vocational and Technical Education, 1966

Political Economy for Human Rights Manuel Couret Branco, 2019-06-05 Over time there has been a miscommunication between mainstream economics and human rights that has paved the way to a justificatory ideology that validates the submission of human rights to the logic of market capitalism This book shows how the discourse of mainstream economics is intrinsically opposed to the strengthening of human rights and outlines the principles upon which a human rights based political economy can be built Considering a variety of recognized human rights such as the right to water and sanitation the right to social security the right to work cultural freedom and democracy this book describes how mainstream

economics theory conflicts with these rights and explores alternative modes of thinking that incorporate human rights concerns into economics Moreover the book also reflects on the teaching of political economy for human rights It sets out that a political economy favourable to human rights must be pluralist interdisciplinary participatory de commodified non utilitarian and non consequentialist The author proposes that it must not only assume the performative character of economics but also and especially its transformative purpose Political Economy for Human Rights will offer students academics activists and policy makers useful tools to understand some of the main contradictions of contemporary societies and new paths leading to a more just and fraternal world It will also be of great interest to the general public concerned with human rights and economic issues

Lesson Study-based Teacher Education Jongsung Kim, Nariakira Yoshida, Shotaro Iwata, Hiromi Kawaguchi, 2021-05-26 The philosophy of Lesson Study in Japan teacher ownership teacher professionalism student learning focused dialogue teacher collaboration and teacher professional community has attracted educators and researchers worldwide However Lesson Study does not have the same meaning as its original Japanese expression Jugyou Kenkyuu a combination of two Japanese words Jugyou meaning instruction or lesson s and Kenkyuu meaning study or research To bridge the gap between Jugyou Kenkyuu and Lesson Study and therefore maximize the potential of Lesson Study in the world this edited volume provides two mirrors for those who wish to reflect on and implement Lesson Study within their own contexts One section discusses how Lesson Study is utilized in Japanese teacher education and how this system reproduces the very culture of Lesson Study The other section addresses case studies showcasing Lesson Study implementation in several countries such as the United States Germany Norway Peru and Uganda and discusses the opportunities and challenges that arise when Lesson Study based teacher education expands beyond Japan to the rest of the world This book will appeal to anyone interested in learning about Lesson Study

You're Teaching My Child What? Miriam Grossman, 2009-08-04 If you think sex education is still about the birds and the bees think again And it's not about science either In her shocking expos *You're Teaching My Child What* Dr Miriam Grossman rips back the curtain on sex education today exposing a sordid truth Today's sex ed programs aren't based on science they're based on liberal lies and politically

correct propaganda that promote the illusion that children yes children can be sexually free without risk As a psychiatrist and expert on sexual education Dr Grossman cites example after example of schools and organizations whitewashing or omitting altogether crucial information that doesn't fit in with their PC agenda Instead sex educators only tell teens the facts of life that promote acceptance sexual exploration and experimentation What sex educators call an education scientists would call a scam Sex educators won't tell girls their bodies are biologically and chemically more susceptible to STDs they will only say 3 million girls have a sexually transmitted infection Educators say it's natural for children to explore their sexuality from a young age and only they can decide when it's right to have sex the real truth is neurobiologists say teen brains are not developed to fully reason and weigh consequences especially in the heat of the moment Teens are told condoms vaccines and yearly testing provide adequate protection without being told that studies now show condoms are no match for herpes HPV and gonorrhea In *You're Teaching My Child What* Dr Grossman reveals biological truths that you won't find in today's classrooms *You're Teaching My Child What* is critical reading for parents with teens and instrumental in teaching children the truth about sex
