Virago Reprints and Modern Classics D-M Withers, 2021-05-20 Reprinting republishing and re covering old books in new clothes is an established publishing practice How are books that have fallen out of taste and favour resituated by publishers and recognised by readers as relevant and timely This Element outlines three historical textures within British culture of the late 1970s and early 1980s History Remembrance and Heritage that enabled Virago s reprint publishing to become a commercial and cultural success With detailed archival case studies of the Virago Reprint Library Testament of Youth and the Virago Modern Classics it elaborates how reprints were profitable for the publisher and moved Virago s books and the Virago brand name from the periphery of culture to the centre Throughout Virago s reprint publishing and especially with the Modern Classics the epistemic revelation that women writers were forgotten and could therefore be rediscovered was repeated again and again and made culturally productive through the marketplace

The Situationist City Simon Sadler, 1999-08-18 Simon Sadler searches for the Situationist City among the detritus of tracts manifestos and works of art that the Situationist International left behind From 1957 to 1972 the artistic and political movement known as the Situationist International SI worked aggressively to subvert the conservative ideology of the Western world The movement s broadside attack on establishment institutions and values left its mark upon the libertarian left the counterculture the revolutionary events of 1968 and more recent phenomena from punk to postmodernism But over time it tended to obscure Situationism s own founding principles In this book Simon Sadler investigates the artistic architectural and cultural theories that were once the foundations of Situationist thought particularly as they applied to the form of the modern city According to the Situationists the benign professionalism of architecture and design had led to a sterilization of the world that threatened to wipe out any sense of spontaneity or playfulness The Situationists hankered after the pioneer spirit of the modernist period when new ideas such as those of Marx Freud and Nietzsche still felt fresh and vital By the late fifties movements such as British and American Pop Art and French Nouveau Ralisme had become intensely interested in everyday life space and mass culture The SI aimed to convert this interest into a revolution at the level of the city itself Their principle for the reorganization of cities was simple and seductive let the citizens themselves decide what spaces and architecture they want to live in and how they wish to live in them This would instantly undermine the powers of state bureaucracy capital and imperialism thereby revolutionizing people s everyday lives Simon Sadler searches for the Situationist City among the detritus of tracts manifestos and works of art that the SI left behind The book is divided into three parts The first The Naked City outlines the Situationist critique of the urban environment as it then existed The second Formulary for a New Urbanism examines Situationist principles for the city and for city living The third A New Babylon describes actual designs proposed for a Situationist City
