Cocktails with George and Martha Philip Gefter,2024-02-13 Smart and entertaining Gefter shows why Who s Afraid of Virginia Woolf hit the 60s like a torpedo NPR Fresh Air Delicious New York Times Book Review The behind the scenes story of a provocative play the groundbreaking film it became and how two iconic stars changed the image of marriage forever From its debut in 1962 Edward Albee s Who s

Afraid of Virginia Woolf was a wild success and a cultural lightning rod. It scandalized critics but magnetized audiences. Across 644 sold-out Broadway performances, the drama demolished the wall between what could and couldn't be said on the American stage and marked a definitive end to the I Love Lucy 1950s. Then Hollywood took a colossal gamble on Albee's sophisticated play and won. Costarring Elizabeth Taylor and Richard Burton, the sensational 1966 film minted first-time director Mike Nichols as industry royalty and won five Oscars. How this scorching play became a movie classic surviving censorship attempts, its director's inexperience, and its stars' own tumultuous marriage is one of the most riveting stories in all of cinema. Marfield Prize-winner Philip Gefter tells that deliciously entertaining story in full for the first time, tracing Woolf from its hushed origins in Greenwich Village's bohemian enclave through its tormented production process to its explosion onto screens and its permanent place in the canon of American cinema. This deliciously entertaining book explores how two couples, one fictional, one all too real, forced a nation to confront its most deeply held myths about relationships, sex, family, and against all odds, love. The Flying Lady, 1965. British Car Advertising of the 1960s. Heon Stevenson, 2015-03-27. During the 1960s, the automobile finally secured its position as an indispensable component of daily life in Britain. Car ownership more than doubled from approximately one car for every 10 people in 1960 to one car for every 4.8 people by 1970. Consumers no longer asked, "Do we need a car?" but "What car shall we have?" This well-illustrated history analyzes how both domestic car manufacturers and importers advertised their products in this growing market, identifying trends and themes. Over 180 advertisement illustrations are included. *Fashion, Design and Events*. Kim Williams, Jennifer Laing, Warwick Frost, 2013-12-17. The importance of fashion and design in an events context remains under-researched despite their ubiquity and significance from a societal and economic perspective. Fashion-themed events, for example, appeal to broad audiences and may tour the globe. Staging these events might help to brand destinations, boost visitor numbers, and trigger popular debates about the contributions that fashion and design can make to identity. They may also tell us something about our culture and wider society. This edited volume, for the first time, examines fashion and design events from a social perspective, including the meanings they bestow and their potential economic, cultural, and personal impacts. It explores the reasons for their popularity and influence and provides a critique of their growth in different markets. Events examined include fashion weeks, fashion or design-themed exhibitions, historical re-enactments, extreme alternative fashion and design events, and large-scale public events such as royal weddings and horse races. International examples and case studies are drawn from countries as diverse as the USA, UK, Germany, Bhutan, New Zealand, and Australia. These are used to develop and critique various thematic concepts linked to fashion and design events, such as identity, gender, aspirations, and self-image, commodification, authenticity, destination development, and marketing, business strategy, and protection, infringement of intellectual property. *Fashion, Design and Events* also provides a futurist view of these types of events and sets out a future research agenda. This book has a unique focus on events associated with fashion and design and features a swathe of disciplinary backgrounds. It will appeal
